

ARRAN
SENSE of SCOTLAND

NATURALS

Our next chapter.

Over the past 2 years the world has changed dramatically for everyone. We have watched as life as we knew it came to a standstill and our lives were turned upside down. Putting into focus what is truly important, as our priorities changed for the better.

We started spending more time outdoors expanding our minds and soothing our souls. Feeling for ourselves the healing powers of nature in a country with vast, space to roam, breath-taking landscapes, and beautiful biodiversity - with a feeling we had unlocked something special.

From this we knew we had to share what we had found with the world; the moments where we had found peace, but more than that we had to do it better. We wanted to share the calming stillness of the lochs, the wild awakening hillsides, and the playful, power of the wind but we wanted to do it with minimal impact on our environment. A new direction for ARRAN, and our first, big step of many towards a more sustainable future.

Building on ARRAN's 30+ year experience in producing luxury bath, body & home products we are excited to introduce our new range.

Natural Ingredients

We began developing our new range from the ground up, choosing the best natural ingredients to build upon. With a combination of Scottish extracts and active botanicals to help you reconnect with nature for a moment of tranquillity. Each product is made from over 94% **natural ingredients**.* All the ingredients are responsibly and ethically sourced.

Natural Fragrance

Using **100% natural** fragrances we have developed a range specifically formulated to capture the benefits nature can bring to improve emotional wellbeing. Each scent is expertly curated to combine a range of essential oils for their calming, energising or grounding qualities.

Sustainable

As we aim to help with your wellbeing we aim to do the same for the planet. Sustainability is incredibly important to us as we evolve as a brand, but we understand it is a journey, and we're committed to continuously reducing our impact on the earth. We have made a confident move to use aluminium and glass for our standard sized bottles. One key reason for choosing aluminium is for its ability to be endlessly recycled. All our cardboard packaging is **FSC approved**. We have introduced **1L refill** options to minimise as much single use packaging as possible.

Natural, Luxury, and sustainable bath & body care to soothe body, mind & soul.

We believe nature is the solution to
better wellbeing.

Wellbeing is found within the nature that surrounds us.

It is the perfect harmony between the land and the sea; it is the serene calm that follows a storm; it is taking a deep breath in nature and allowing the cool air to fill your lungs – pausing for a moment in the stillness. It is the warmth of the summer sun after the harshness of winter; it is embracing the rain and letting it wash over you, pure and clean, refreshed and awakened.

Discover nature inspired wellbeing and
transport your mind to our unspoiled island home.

Notes On Our Natural Ingredients*

SOAP 99.7% Natural ingredient.*

- **Avena (Oat) Seed Extract** - Scottish sourced. Rich in essential nutrients.
- **Kombu Kelp Extract** - Scottish sourced. Moisturises.
- **Shea Butter** - Highly moisturising and nourishing properties
- **Hydrolyzed Jojoba Esters** - Alternative to common synthetic ingredients to moisturise and smooth the skin.

HAND WASH 95.3% Natural ingredient.*

- **Aloe Vera** - Known for its moisturising and soothing benefits
- **Betaine** - Naturally occurring in plants. Upcycled from sugar production. Increases skin's moisture absorption & retention. Provides deeper hydration for longer.
- **Kombu Kelp Extract** - Scottish sourced. Moisturises.
- **Meadowsweet Extract** - Scottish sourced. Soothing properties.

BODY WASH 95% Natural ingredient.*

- **Vitamin B5 (Panthenol)** - Helps improve skin hydration, elasticity and appearance.
- **Betaine** - Naturally occurring in plants. Upcycled from sugar production. Increases skin's moisture absorption & retention. Provides deeper hydration for longer.
- **Avena (Oat) Seed Extract** - Scottish sourced. Rich in essential nutrients.
- **Sarothamnus Scoparius (Broom) Extract** - its high levels of anti-oxidants that help protect your skin

HAND & BODY LOTION 99.3% Natural ingredient.*

- **Aloe Vera** - Known for its moisturising and soothing benefits
- **Sodium Hyaluronate** - Helps improve your skins smoothness and moisture levels. Targeting the effects of ageing.
- **Kombu Kelp Extract** - Scottish sourced. Moisturises.
- **Avena (Oat) Seed Extract** - Scottish sourced. Rich in essential nutrients.
- **Shea Butter** - Highly moisturising and nourishing properties
- **Rosehip Oil** - Loaded with skin nourishing vitamins and essential fatty acids to Increases skin's moisture absorption & retention.
- **Sweet Almond Oil** - Helps lock in and balance moisture levels and naturally soothe and smooth the skin.
- **Saccharide Isomerate** - 100% plant-derived. Helps provide long-lasting moisturization for up to 72 hours. It strengthens the skins barrier and helps protect against dryness.

DEODORANT 99.9% Natural ingredient.*

- **Shea Butter** - Highly moisturising and nourishing properties.
- **Zinc Ricenoleate** - Highly effective in trapping and absorbing odour.
- **Ocean Lace Extract** - Scottish sourced. Rich in minerals, vitamins and amino acids that naturally moisturise.
- **Milk Thistle Extract** - Scottish sourced. Helps protect the underarm skin and soothe irritation.
- **Magnesium Hydroxide, Magnesium Carbonate Hydroxide** - Provides long lasting body odour reduction. A naturally alternative to aluminium.
- **Sodium Caproyl/Lauroyl Lactylate, Triethyl Citrate, Salvia Officinalis (Sage) Oil** - A blend of naturally-derived actives that counter act odour for up to 24 hours.

BATH SALTS 100% Natural ingredient.*

- **Sea Salt** - Rich in minerals to help support skin health
- **Himalayan Salt** - Rich in minerals such as potassium, magnesium and calcium.
- **Epsom Salts** - Traditionally used to aid relaxation and muscle aches, ease stress and aid sleep.

LIP BALM 97.9% Natural ingredient.*

- **Shea Butter** - Highly moisturising and nourishing properties.
- **Ocean Lace Extract** - Scottish sourced. Rich in minerals, vitamins and amino acids that naturally moisturise.
- **Milk Thistle Extract** - Scottish sourced. Helps protect the underarm skin and soothe irritation.
- **Avena Sativa (Oat) Kernal Oil** - Rich in Vitamin E to help skin absorb and lock in moisture.
- **Wild Mango Botanical Butter** - Helps restore, soften and bring suppleness to dry lips.
- **Ethylhexyl Acetoxystearate Estolide** - Sustainably sourced. Plant-based emollient has great moisturising, softening and conditioning properties.
- **Jojoba, Mimosa & Sunflower Waxes** - A unique blend that gives our lip balm great moisture retention properties.
- **Polycitronellol (and) Euphorbia Cerifera (Candelilla) Wax** - A Natural alternative to petroleum jelly that performs better at locking in moisture.

PULSE POINT OIL 99.9% Natural ingredient.*

- **Avena (Oat) Seed Extract** - Scottish sourced. Rich in essential nutrients. Anti-inflammatory and anti-itch properties.
- **Rosehip Oil** - Loaded with skin nourishing vitamins and essential fatty acids to Increases skin's moisture absorption & retention.
- **Isoamyl Laurate** - Light, highly spreadable, non-oily, silky emollient base.

Our Key Natural Ingredients

Soap

99.7% Natural ingredient.*

Oat (*Avena Sativa*) Seed Extract

The humble oat can be used for more than porridge.

We use Scottish sourced Oat seed extract because it is rich in essential nutrients including B vitamins, minerals and high in beta-glucans. These help our soap protect the skin and lock in moisture. One of the most well-studied active compounds of oat is avenathramides, a group of phenolic alkaloids, which have soothing properties.

Kombu Kelp Extract

Sourced from the coasts of Scotland this seaweed extract is rich in minerals and essential fatty acids that naturally give our soap the ability to moisturise and promote good skin health. The Latin name for Kombu is *Laminaria Digitata* because the leaflike part resembles the fingers (digits) of a hand.

Shea Butter

Known for its highly moisturising and nourishing properties. She Butter is Rich in fatty acids, vitamins and antioxidants. Derived from the oil of the Shea tree, grown naturally, and sourced in the dry savannah region of West Africa and Kenya

Hydrolysed Jojoba Esters

Hydrolysed jojoba esters are derived from jojoba oil, a unique natural oil expressed from the seed of the jojoba plant. We use Hydrolysed Jojoba Esters because it is a natural alternative to common synthetic ingredients. It provides the skin with improved hydration and has been found to enhance the smoothness and softness of the skin.

*Ingredients of natural origin.

Our Key Natural Ingredients

Hand Wash

95.3% Natural ingredient.*

Aloe Vera

Well-known for its moisturising and soothing benefits, aloe vera is a natural source of salicylic acid, assisting with flare-ups.

Betaine

Naturally occurring in plants, our Betaine is upcycled from the production of sugar. It increases your skin's water retention, moisture absorption, and provides deeper hydration for longer periods of time.

Kombu Kelp Extract

Sourced from the coasts of Scotland this seaweed extract is rich in minerals and essential fatty acids that naturally give our soap the ability to moisturise and promote good skin health. The Latin name for Kombu is Laminaria Digitata because the leaflike part resembles the fingers (digits) of a hand.

Meadowsweet Extract

Locally sourced in Scotland. Meadowsweet is a Natural astringent and contains salicylic acid which is a natural exfoliator. Also known to have soothing and skin conditioning properties.

*Ingredients of natural origin.

Our Key Natural Ingredients

Body Wash

94.7% Natural ingredient.*

Vitamin B5 (Panthenol)

As a moisturising ingredient, it stabilises the skin's barrier function, reducing the amount of water lost through the skin. This, in turn helps improve skin hydration, elasticity and smooths appearance.

Betaine

Naturally occurring in plants, our Betaine is upcycled from the production of sugar. It increases your skin's water retention, moisture absorption, and provides deeper hydration for longer periods of time. By improving your skin's barrier integrity, not only are you retain moisture through the layers of your skin, harmful or irritating substances also can't get in.

Avena (Oat) Seed Extract

We use Scottish sourced Oat seed extract because it is rich in essential nutrients including B vitamins, minerals and high in beta-glucans. These help our body wash protect the skin and lock in moisture. One of the most well-studied active compounds of oat is avenathramides, a group of phenolic alkaloids, which have soothing properties.

Broom (Sarothamnus Scoparius) Extract

Broom is a Bright yellow shrub native to Scotland. We use this botanical because of its high levels of anti-oxidants that help protect your skin. Traditionally used to help skin conditioning and improve hair shine.

*Ingredients of natural origin.

Our Key Natural Ingredients

Hand & Body Lotion

99.3% Natural ingredient.*

Aloe Vera

Well-known for its moisturising and soothing benefits, aloe vera is a natural source of salicylic acid, assisting with flare-ups.

Sodium Hyaluronate

Derived from Hyaluronic Acid, Sodium Hyaluronate is a naturally occurring substance that helps your skin look youthful and supple. We use this ingredient in our lotion because it helps improve skin smoothness and moisture levels by targeting the effects of ageing.

Kombu Kelp Extract

Sourced from the coasts of Scotland this seaweed extract is rich in minerals and essential fatty acids that naturally give our soap the ability to moisturise and promote good skin health. The Latin name for Kombu is Laminaria Digitata because the leaflike part resembles the fingers (digits) of a hand.

Avena (Oat) Seed Extract

We use Scottish sourced Oat seed extract because it is rich in essential nutrients including B vitamins, minerals and high in beta-glucans. These help our lotion protect the skin and lock in moisture. One of the most well-studied active compounds of oat is avenathramides, a group of phenolic alkaloids, which have soothing properties.

Shea Butter

Known for its highly moisturising and nourishing properties. She Butter is Rich in fatty acids, vitamins and antioxidants. Derived from the oil of the Shea tree, grown naturally, and sourced in the dry savannah region of West Africa and Kenya

Rosehip Oil

Also known as Rose seed oil this natural ingredient has been prized since ancient times for its valuable skin benefits. Rosehip oil is loaded with skin nourishing vitamins and essential fatty acids that help Hydrate the skin and keep it soft and supple. Rosehip oil contains a wealth of essential fatty acids, including linoleic and linolenic acid. These help keep cell walls strong so they don't lose water.

Sweet Almond Oil

Sweet almond oil is full of natural goodness: vitamin E, vitamin A, essential fatty acids, proteins, potassium, and zinc, making it perfect in your daily skincare regime. We love this ingredient because it helps lock in and balance moisture levels to naturally soothe and smooth the skin..

Saccharide Isomerate

A unique ingredient that is 100% plant-derived carbohydrate complex that functions as a water-binding agent, emollient, and skin replenisher. It is an effective moisturiser containing natural Skin-identical carbohydrates and helps provide long-lasting moisturization for up to 72 hours. It strengthens the skins barrier and helps protect against dryness.

*Ingredients of natural origin.

Our Key Natural Ingredients

Deodorant

99.9% Natural ingredient.*

Shea Butter

Known for its highly moisturising and nourishing properties. She Butter is Rich in fatty acids, vitamins and antioxidants. Derived from the oil of the Shea tree, grown naturally, and sourced in the dry savannah region of West Africa and Kenya

Zinc Ricenoleate

This interesting little ingredient is a key component in our Natural Deodorant. It is highly effective in trapping and absorbing odour molecules giving us an effective deodorant. It also doesn't prevent the body's release of sweat or interfere with the natural flora found on the body.

Ocean Lace Extract

Better known as Sea Spaghetti this seaweed extract is rich in minerals, vitamins and amino acids that naturally moisturise and enhance skin conditioning. Sourced from the coasts of Scotland.

Milk Thistle Extract

Sourced in Scotland, this ingredient is used to help protect the underarm skin and soothe irritation. The thistle is official emblem of Scotland.

Magnesium Hydroxide, Magnesium Carbonate Hydroxide

Originating from the Dead Sea, this ingredient contains properties that provide long lasting body odour reduction. Magnesium Hydroxide is a safe and naturally occurring compound used in our natural deodorant as an alternative to aluminum, baking soda and other ingredients that are potentially irritating, ineffective, or hazardous. It can help to control the bacterial growth under the arms which are responsible for body odour.

Sodium Caproyl/Lauroyl Lactylate, Triethyl Citrate, Salvia Officinalis (Sage) Oil

A synergistic blend of naturally-derived deodorant actives including sage oil that target the causes of body odour and helps provide up to 24 hours of deodorancy.

*Ingredients of natural origin.

Our Key Natural Ingredients

Lip Balm

97.9% Natural ingredient.*

Shea Butter

Known for its highly moisturising and nourishing properties. She Butter is Rich in fatty acids, vitamins and antioxidants. Derived from the oil of the Shea tree, grown naturally, and sourced in the dry savannah region of West Africa and Kenya

Ocean Lace Extract

Better known as Sea Spaghetti this seaweed extract is rich in minerals, vitamins and amino acids that naturally moisturise and enhance skin conditioning. Sourced from the coasts of Scotland.

Milk Thistle Extract

Sourced in Scotland, this ingredient is used to help protect the underarm skin and soothe irritation. The thistle is the official emblem of Scotland.

Avena Sativa (Oat) Kernal Oil

This natural ingredient is rich in Vitamin E which helps the skin absorb and lock in moisture giving your lips longer hydration. Oat kernel oil is also packed with Linoleic Acid, known to strengthen and repair the skins protective barrier.

Wild Mango Botanical Butter

This natural ingredient is excellent at moisturising. It helps repair dry, damaged lips restoring softness and suppleness. The fatty acids in the butter work as emollients to prevent it from feeling dry and itchy.

Ethylhexyl Acetoxystearate Estolide

Sustainably sourced this natural plant-based emollient has great moisturising, softening and conditioning properties. It also helps boost the skin barrier function.

Jojoba, Mimosa & Sunflower Waxes

A unique blend that gives our lip balm great moisture retention properties. 100% vegetable derived this natural ingredient gives an enhanced feel on lips

Polycitronellol (and) Euphorbia Cerifera (Candelilla) Wax

A Natural alternative to petroleum jelly that performs better at locking in moisture. This ingredient has been upcycled from sustainable feedstock and is biorenewable and biodegradable. Polycitronellol - is sustainably sourced from forest-derived terpenes.

*Ingredients of natural origin.
