Hello Smart Partner,

Firstly, a wholehearted thank you! Thank you for all your patience and for making 2021 successful during these challenging times. The supply chain chaos and the COVID-19 pandemic continued to test our entire industry.

We know that this experience has made our business even stronger, more resilient and highly flexible to face future hurdles together.

We can look back to 2021 with a level of positivity and pride as we continued to grow as a Company. We are proud of the SmartHub and SmartMax website launches and hope that these inspire more collaborations with you. We were delighted to see our products win so many awards again, particularly SmartMax, and remain totally focused on creating many more award winning, entertaining and educational toys and games...

Furthermore, we are further developing our brands GeoSmart, Happy Cube, Yatzy and Mimiq.

While we are constantly improving our digital resources by updating & upgrading our SmartGames and SmartGamesLive websites, also our marketing resources and tools continue to grow with more and more sharable social media content. Finally a brand style guide to help us all grow brand recognition, product awareness and enhance our already strong loyal fan base.

So, let's huddle up even closer together and make 2022 another successful year.

On behalf of all the Smart Team.

PEEK-A-ZOO™

I see you! Stack the blocks correctly to match the image.

The zoo-animals love playing peekaboo! Can you spy with your little eye where these fun-loving animals need to go? Choose a challenge and try to stack the right cubes as shown on the challenge card. Peek-A-Zoo is a great educational game for preschoolers to practice language skills, learn about colours, animals, and concepts such as above, below, inside and outside.

This educational game is made of high quality, durable cardboard and is easy to store and take with you wherever you go.

HOW TO PLAY

1

Choose a challenge. Decide which Cubes you need. Put aside the cubes you don't need for the challenge. Their presence can be distracting, especially for young children.

2

Try to build what is shown on the challenge card, using 2 or more blocks.

3

You have found a solution when the front view of your construction matches the image on the challenge card.

TREASURE ISLAND™

Adventurers are needed to find the ancient temple on a forgotten island!

Use logic and deduction, but watch out! On this island the pieces shift! Find the right combinations to place the pieces and locate the ancient temple. 80 challenges to bring you to the end of the world... or push you over the edge!

NEW!

Contents: game board, 4 shape shifting puzzle pieces, 1 puzzle piece with temple, booklet with 80 challenges and solutions.

HOW TO PLAY

1

Select a challenge. Each challenge shows a treasure map of an island, but some information is missing (white hexagons).

2

Place the puzzle pieces on the game board so that the terrains match the terrains on the puzzle pieces. Each puzzle piece (except the one with the temple) can be transformed in 4 different shapes!

3

The solution will reveal the location of the hidden temple.

HOW TO PLAY

1

SETUP: Choose a challenge. Arrange the 9 circular pieces with trees on the gameboard as indicated in the challenge.

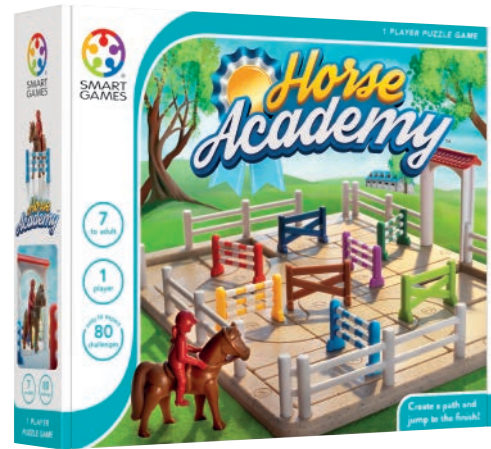

2

PLAY: The object of Grizzly Gears is to move each character to its end position. Characters move by rotating the tree pieces.

3

SOLUTION: You have found a solution when all loose characters shown in the challenge are in their end position at the same time. The shortest solution is shown at the end of the challenge booklet.

HUDDLE UP™

Get together or freeze!

Penguins are scattered across the ice and it's starting to get cold! Move your penguins together into a huddle... while blocking your opponents from doing the same. The first player to bring their entire penguin family together wins the game.

Contents: game board with 4 penguin families (each with 3 large and 3 small penguins), 6 ice blocks (4 straight ice blocks and 2 curved ice blocks), game rules with 2 different difficulty-levels.

HOW TO PLAY

JUNIOR LEVEL 6+

- 1 Set up the game by taking turns scattering your opponent's penguin family across the ice.
- 2 On your turn move your penguins towards each other by moving to an ice patch, jumping over other penguins or diving underneath the ice.
- 3 The first player to move their penguin family into a single connected group wins the game.

EXPERT LEVEL 8+

Temperatures drop to a new level! Same rules as the Junior level with one exception: to win the game the heads of your penguins must be at the same height as well, meaning all 3 large penguins must be standing directly on the game board and all small penguins must be standing on ice blocks.

FROGGIT™

Cross the pond but beware of the fish!

Guide your frogs across the pond and block other players from doing the same. The first player to get their entire frog family to the other side wins the game. But watch out, the fish can scare your frogs back to the start! Flexible thinking, clever planning and the chance to block your opponents make this a fun and exciting game for 2 to 6 players.

HOW TO PLAY

JUNIOR LEVEL 6+

- 1 Place the frog families on the side of the pond.
- 2 Move the frogs across the pond by jumping over a path of lily pads. But watch out... the fish can scare frogs back to the start!
- 3 The first player to get their entire frog family across the pond wins the game!

EXPERT LEVEL 8+

Jump to the next level by combining your frogs:

- Form teams so no one can stop you.
- Trap small frogs to block your opponent.

DRAGON INFERNO™

Rule the kingdom... or go down in flames!

Dragon Inferno challenges players to strategically build the biggest kingdom in the Dragon valley. Watch out! Fire-breathing dragons can turn kingdoms into ashes... but if you're smart, you can use the dragon's inferno against your opponent. The player with the biggest kingdom at the end of the game is the winner.

MAXIMUM FUN WITH MAGNETISM

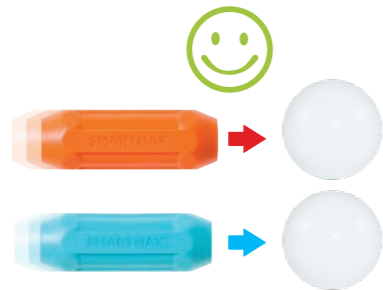

NORTH & SOUTH
Magnets have a magnetic north and south pole. Bars in cold colours (green, blue and lilac) have outward directed north poles. Bars in warm colours (red, orange and yellow) have outward directed south poles.

ATTRACT & REPEL

Opposite poles attract each other, identical poles repel. All bars in 'cold' colours can be combined with all bars in 'warm' colours. All other combinations repel.

BALLS

The SMARTMAX balls are attracted by all magnetic bars, regardless of their colour.
