Description

These classic Maxsteel safety rigger boots are produced using a premium and durable leather upper. The boot features a tough double density polyurethane sole unit which delivers good traction on a wide range of surfaces.

Toe protection is provided by a safety steel toe cap and the inclusion of a steel midsole and 200 joule steel toecap ensures EN ISO 20345 protection from punctures and drop hazards, with an energy absorbing seat region and PU/Rubber outsoles that give SRC slip resistance for great stability, as well also including protection against antistatic build-up, oil resistance and HRO 300c contact heat resistance. This boot also includes faux fur lining for extra comfort and warmth for those harsh winter months making it the perfect boot for use on construction sites, these unisex safety riggers have a size range from size 3 to 14 which are ideal for both men and women in the workplace.

Features

- EN ISO 20345 S1P SRC.
- 200 joule steel toe cap.
- Steel midsole.
- TPU heel support system.
- Fur-type warm lining.
- Dual density polyurethane.
- Oil resistant sole.
- Pull-on loops.
- Antistatic.
- SRC slip resistant.
