CANDLES

[www.sandwickbaycandles.com](http://www.sandwickbaycandles.com)

Sandwick Bay Candles are a handcrafted soy candle company based in Stornoway in the Outer Hebrides.

From small beginnings making candles on the kitchen table in 2016 SBC has grown from a one-woman operation to a dedicated team who make candles, reed diffusers, wax melts and more in our island workshop.

All our candles are made in small batches using 100% natural soy wax, premium fragrances and pure cotton wicks. The entire collection is vegan, cruelty free and phthalate free – always!

As candlemakers with a conscience, we are committed to being planet, people, and animal friendly. Talk to us about our refill station and our plans to be a plastic free small business with a household product return, refill and reuse scheme.
