SPRING/SUMMER 2023
TRADE CATALOGUE

Hello and welcome

to The Foxglove Tree, the home of the Botanical Cast Fragrance Diffuser. My name is Clare and I am the person behind this Lincolnshire based small business. My aim is to capture a small piece of Mother Nature at her most beautiful and allow you to bring it into your home. Every design is made from plants and flowers that I grow here in the Lincolnshire Wolds. Allowing me to select the very best of each growing season. Using the delicate process of botanical casting, the raised image of each plant is preserved in all its intricate detail. Each casting is then infused with vegan friendly fragrance oil transforming them into my Botanical Cast Fragrance Diffusers. Thank you for your interest in my products and joining me on my creative journey.

Each diffuser is made from a botanical casting taken from real plants and flowers. This technique captures every crease of a petal and vein of a leaf in detailed raised relief. Every design is handmade to order. All designs are available in a range of fragrances so you can create your own bespoke collection.

Tree

Each diffuser is individually gift boxed and supplied with 3ml dropper bottle of vegan friendly, cruelty free fragrance oil. Each box also contains an information card explaining the creation process and instructions for use. All of our packaging is eco friendly with compostable boxes and wrappers. The dropper bottles are recyclable. The oil packaging is clp compliant. The next few pages display the designs available at time of print. Please make sure to follow our social media channels to see all the new designs as they are created. If you see a new design which you would like to order please contact me for more information. Also make sure you request to join my wholesale mailing list so you will be the first to receive the latest catalogues and information. I have a large number of fragrances available to choose from. The latest list and descriptions can be found on page 5. If you are spoilt for choice I am always happy to offer advise on where to start and what are currently best sellers. If you would like a bespoke fragrance not listed please contact me for more details.
