SPREADING JOY AND POSITIVITY THROUGH SUSTAINABLE GLITTER

Glamavan is an award winning business established in 2017 by founder Toni Cassidy as a children's pamper party service. Since then the business has expanded into offering more services including eco friendly glitter bar hire for weddings, parties & events and has now set the business up to offer franchise opportunities.

In 2019 Glamavan launched its own brand of biodegradable cosmetic glitter products in sustainable packaging. In 2020 Glamavan became the first ever beauty brand to collaborate with the iconic household name Rubik's Cube®. As an official licensee we launched the Rubik's x Glamavan Eco Glitter Gift Set and have been featured in a number of publications such as Forbes, The Sunday Times, The Daily Express & The Guardian.

Glamavan are also an official licensee of Bioglitter® proving Glamavan source high quality, plant based biodegradable glitter from genuine suppliers for customer reassurance.

OUR PACKAGING

ALL OUR GLITTER IS PACKAGED IN SUSTAINABLE PACKAGING

In line with our eco friendly ethos, we use various packaging options that are either recyclable, reusable or biodegradable.

ALUMINIUM TINS

Our glitters and glitter gels are packaged into lightweight aluminium tins and are vegan friendly.

CARDBOARD TUBES

Our glitter sets are then packaged into cardboard tubes with shredded cellophane which is biodegradable.

Our tins & cardboard tubes are sourced from the UK, who meet the highest ethical, social and environmental standards.

REFILL PACKETS

Our sample and refill packets are made from glassine paper that is 100% recyclable and biodegradable.

LABELS

Our labels are paper using a minimal amount of printer ink that would declare the waste product non harmful to the environment.

SEAL BAG

Our re-closable seal bag are marked with a green line so you can be assured these bags are biodegradable, they have been tested to degrade 15% a year, we use these for the 50g or 100g glitter orders.

KRAFT PAPER POUCH WITH TRANSPARENT WINDOW

Reusable Ziploc Grip Seal Bags for customers wanting to purchase in KG's.

GLITTER MADE FROM PLANTS NOT PLASTIC

PRODUCT INFORMATION

OUR GLITTER PRODUCTS ARE BIODEGRADABLE COSMETIC PRODUCTS

Our products are suitable for both children and adults to use on the face, body and hair. The products can also be used for nail art, candle wax melts, soaps, resin artwork, balloon decoration and other arts & crafts.

Our glitter is predominantly made from modified regenerated cellulose like eucalyptus trees and not plastic.

Our **high shine range** is vegan friendly and contains less than 0.1% aluminum which gives the glitter its 'high shine'. There is a small amount of plastic (8%), however it passes the biodegradable testing.

Our **softer range** is not vegan friendly, but it is aluminum free and 100% microplastic free.

Glamavan's glitter gel is made up from aloe vera leaf and is suitable for vegans, as it contains 4% shellac.

All of our products are cruelty free and have not been tested on animals. Our glitter is also free of the 14 common food allergens.

ECO REINDEER FOOD

Our luxury Eco Reindeer Food is the perfect Christmas Eve box filler for children to sprinkle on their lawn or doorstep to show Santa where to land his reindeer when delivering the presents.

Our Reindeer Food is made of dried oats and a mix of our high shine biodegradable glitters in Berry Red, Green and Gold. It is packaged in a reusable Hessian bag, tied with red and white string and a poem attached that is read out loud.

(This is not an edible product)

BESPOKE GLITTER BLENDS

Having worked with numerous companies to offer bespoke glitter blends, we can create a custom blend of glitter to be on brand for your company or event and can also design bespoke packaging. Not only can we supply the bespoke glitter blends, we also have a team of glitter artists who could apply them to your guests and customers too.

Please get in touch if you would like to find out how we can work with you.

REFILL PACKETS

We have a new concept that enables customers to 'keep their tins' by purchasing a glitter Refill Packet which is made out of a unique grade of paper that's 100% recyclable, 100% biodegradable and compostable.

This enables the customer to pour their glitter from the packet, back into their original glitter tin and recycle the empty packet.

This is an innovative and eco friendly concept that is available for all our glitter blends and single colours, another step towards sustainability.
