THE (CANDLE) BRANDS

from our family to yours

Handmade in the UK by the Brand Family

When you are your own brand

We are passionate, and because we are family, we are each determined to make our business one of the best through product quality, and customer service.

In 2017 our founder Christina Brand started the company from her dining room, along side her newborn. We expanded and grew fast due to the love of our products and loyal social media following.

2021, The Candle Brand won three categories in the Gift of the Year Awards, run by the Giftware Association. We are honoured to receive the prestigious and ultimate 'Home Fragrance' award, 'My Gift of All Time' and 'Beauty Bath and Spa'.

Now 2022, we are stocked by over 300 retailers across the country. And are loved by thousands of customers, famous influencers and celebrities!

We concentrate our efforts on being eco friendly and sustainable to the best of our ability. And pride ourselves in the fact that we have run our business plastic free, vegan and cruelty free since day one!

We are a forward thinking business and thrive on our social media platforms where we love to promote and engage with our stockists. Paving the way through innovation, we are always on our toes thinking out of the box within the home fragrance industry.
