# Find Your Glow Ltd

In creating F.Y.G. it was important to produce not just another scented product but an immersive experience. What started as a desire to re-capture my childhood joy of family holidays spent in Greece, then developed into a project of encapsulating a range of significant and beautiful experiences from the past.

Whilst each scent has a story and individual character to evoke memory, feeling and mood, it was equally important to create modern designs – to fit in with and subtly enhance any living space. And with all of that, F.Y.G. had to be sustainable.

That is why each product is 100% natural and recyclable.

# Funtime Gifts

Growing up has always been optional! Supplying the Toy and Gift trade for over thirty years, Funtime Gifts helps recreate distant memories at the same time as inventing future ones. It's huge array of novelty gifts and toys provide something for everyone. Founder Malcolm Ford, first ventured into the puzzle and gift market while studying civil engineering at Loughborough University in 1969 and with two other engineers, formulated a range of complex 3D puzzles to test the brain, hand and eye coordination. These were launched for the first time in 1972 and led to the foundation of Funtime Gifts. Funtime is probably best revered for bringing the Disco Dancing Flowers and the singing fish Big Mouth Billy Bass to these shores. Nowadays in the world of iPhones and iPads, electronics and synchronisation in toys are taken totally for granted; twenty years ago it was unseen and was quite ground breaking. Today Funtime is still breaking the mould with guns that fire air, animals that laugh, lasers that turn your ceiling into a planetarium, the world's smallest Walkie Talkies and so much more.

We are a family-owned artisanal spice and tea company run by mother and son team Sanjay & Shashi Aggarwal (aka Mamma Spice & Baby Spice!). Sanjay and Shashi share a common goal: to honour their Indian heritage and make their ancestors proud. That they can inspire so many to create, authentic dishes in the process is a bonus! What started as a discussion over the kitchen table on Christmas Day 2012, Spice Kitchen has developed into a thriving small business that has never lost touch with its roots. # Stitching Me Softly

I have always been creative and taught myself to crochet 8 years ago. I then spent some time developing my skills before launching Stitching Me Softly in 2017, just after the birth of my third daughter. I began designing baby and children's items as I wanted something specific for my own children that I couldn't find on the high street. I am drawn to simple geometric shapes and contrasting colour palettes, and this theme is reflected in my crochet designs.

I really enjoy designing new products which inspire the creativity in other people. This has led to designing a range of Craft Kits and running workshops around the UK.

The Craft Kits have become so popular that they are now the main focus of the business.
