

 **HUCKLEBERRY**

KIKKERLAND®

HUCKLEBERRY

Huckleberry is a line of simple toys and tools designed by Chris Koens and Ramon Middelkoop for Kikkerland Design. Chris and Ramon, inspired by their children, wanted to create a way for kids to have fun interacting with the world outside. Huckleberry inspires children to put down their digital screens and enjoy the beauty of nature. While there is much to learn on the internet, there's so much to learn outdoors, too! With Huckleberry, we hope today's moments of outdoor fun can develop tomorrow's great nature custodians.

Since 1992 Kikkerland Design has established itself as one of the top companies in the world offering unique, well designed products to inspire our customers and their needs. Kikkerland supports and represents independent, self-producing designers from around the world. In addition, our in-house design team creates and develops new products every day.

At Kikkerland Design we pride ourselves on giving back to local and global organizations, ranging from ecological restoration projects to creative writing and design programs for underserved youth.

The mark of
responsible forestry
