# Our Story

English luxury with a delightful Italian influence... we are proud to present our fragrance, bath & body collections. Fond memories of Italy led us to create three ranges, each with its own unique inspiration.

Di Palomo was initially created in 2003. Three friends enjoyed lunch, overlooking the River Dart in Devon, on a perfect English summer's day. As a bottle of Verdicchio was opened, the friends savoured fond recollections of time spent in Italy. As the afternoon wore on, they became inspired with the idea of capturing and sharing their memories with fragrances, reminiscent of their time in Tuscany. Seduced by the exotic aroma of orange groves and the calming effect of the Cypress trees, casting shadows on the walls of a Tuscan farmhouse...It was at that moment Di Palomo was born!

Since the very first inception, quality, style and attention to detail have been combined to create a truly indulgent collection. Our exquisite packaging and fine fragrances will carry you away to the warmth and relaxation of an Italian summer... from a Tuscan farmhouse high in the hills among the early morning invigorating mist, to an evening stroll through the orange groves or a vineyards, heavy with ripened grapes, overlooking an Italian lake as the sun dissolves behind the silhouetted landscape.

All designed in the UK and made using the finest quality ingredients, if you can't be in Tuscany right now, Di Palomo is the next best thing.
