# OUR STORY

Many years ago, our Chairman and Chief Tea Taster Rahim Afshar was inspired by a dream to make the world a better place. He embarked on a journey with his brothers to find the world's finest tea gardens and blend the world's most extraordinary teas.

Today, Ahmad Tea brings over 30 million cups of tea a day to tea lovers in more than 80 different countries, making great tea available to all, from global cities to tiny villages; a tea so pleasing that once you taste it you will never settle for anything less. We taste each infusion seven times from garden to cup, fulfilling our Chairman's promise never to sell tea he wouldn't drink at home.

As a company, we fulfil our sense of responsibility towards others through the 'Inspiring Kindness' principle, which dedicates a percentage of our profits to charity so we can share our success with those who need it most.

# INSPIRING THE LOVE OF TEA

---

We want to inspire tea drinkers with our passion and commitment to quality. We honour the role played by a cup of Ahmad Tea, from everyday moments of quiet reflection to times of joyous celebration.

We go to incredible lengths to make the world's most exceptional tea available to everyone, everywhere, because we are on a mission to inspire the love of tea in every single tea drinker.

Our dedication to pursuing our dream takes us on journeys of extraordinary discovery, building lasting friendships, and making a commitment to respect and care for the tea trade every step of the way.

Our desire to master our art drives us to dance with flavour, play with fusion and share our passion. Uniting people in tiny villages and huge cities across the globe in the shared love of great tasting tea.

# INSPIRING KINDNESS

---

We believe that the world doesn't change. People change it. Kindness, authenticity and giving back unconditionally are the foundations of what we have done since we started our business. It is the right thing to do; it comes from the heart.

Through our Kindness Programme, we dedicate a percentage of our profits to help the people and communities where we source and sell our tea. By working this way we can make sure that the tea trade we love, and the people who work within it, can continue to thrive.

We are so proud to have been involved in different projects around the world that support people where there is need. The Razavi Hospital Project continues to improve cancer treatment in Sri Lanka and our work with Oxfam in recent years enables us to provide safe drinking water in Niger.

We are committed to sustainable business practice, such as reducing carbon emissions, reducing reliance on plastics, harnessing solar power and making efficiencies in our recycling and waste management systems.

So, in a small way, every cup of Ahmad Tea helps to make the world a better place.

Each blend is made with real fruit pieces plus our signature flavouring to create distinctive characters and are equally delicious hot or or cooled to make iced tea.

Green tea has been enjoyed in China for over 5,000 years.

Unlike black teas, the leaves aren't allowed to oxidise and so they stay green. This gives green tea its light, delicate flavour and pale green/yellow colour. Our green tea 20 teabag range is foil-wrapped for freshness and fuses our finest quality teas with enticing flavour combinations.
