## Threadless Jewellery

**STEP 1**  
Insert the pin half way in to the shaft.

**STEP 2**  
Bend the pin slightly

**STEP 3**  
Push in the removable end to close. The bent pin straightens out inside the shaft, creating a spring tension force that holds the two pieces together.

**STEP 4**  
Pull apart both ends to remove. If jewellery is tight, add a slight twisting motion.
