UK 2022

Well, 2021 was an interesting year, wasn't it? Just when we thought we could cautiously peep out from behind our metaphorical couch following Brexit, exchange rate dramas, lockdowns, price increases and a worldwide pandemic, our friends at the shipping companies seemed determined to make life as difficult (and expensive) as possible! Despite this however the team here at **University Games** managed a record year for sales and I believe that, as you can see from this catalogue, we are well placed to have another record year in 2022. We will continue to strive towards growing your sales and profitability with a fantastic range, excellent margins, great customer service and strong availability.

We continued to remove single use plastics from our games and puzzles in 2021 and will make further progress in 2022. Every product decision we make has our environmental commitments front and centre and the net result is over **1 million games and puzzles sold in 2021 have had single use plastic removed** from the packaging. Oh! and we have installed electric car charging points at the office as well, 'every little helps' as someone once said!

As always you will find plenty of **NEW** products as you go through the catalogue. Among the highlights must be an amazing range of **Star Wars** Model Kits, as well as **Marvel and Disney licensed 3D puzzles**, following on from the huge success of our **3D Harry Potter puzzle range**. There is also a new range of **Hasbro licensed puzzles including Mr Potato Head and Monopoly**, a unique range of **"Scratch Off"** puzzles, all in all no fewer than 58 new games and puzzles!

We are also proud to be launching a range of **Tom Gates games and puzzles in 2022**. This hugely popular book series has inspired millions of children and we are launching a **Monster Games Compendium, three double sided jigsaw puzzles** which contain pencils for colouring in one side of the finished puzzle and a **card game**. 2022 also sees the 75th anniversary of **Subbuteo**. Following on from our successful marketing campaign of the last two years we will be launching a **special edition** of the iconic game suitable for players and collectors alike.

As you will see as you look through the catalogue, we have been incredibly busy refining and developing our top selling ranges so that in 2022 we really have an offering of games and puzzles that is second to none. I hope you enjoy browsing through the catalogue and if you want some more information why not check out our new website at **www.university-games.co.uk**. Finally, if you are an existing customer, I would like to thank you very much for your continued support and if you are looking at **University Games** for the first time, I look forward to welcoming you on board for what promises to be an exciting ride in 2022!

Best Wishes

Richard Wells
