

# DRYER DOTS™

eco-friendly fabric softener

## LOVE YOUR LAUNDRY

Soften laundry and reduce drying time naturally with Gleener Dryer Dots. Made with 100% ethically sourced New Zealand wool, Gleener Dryer Dots are hypoallergenic and biodegradable. Free of harmful chemicals, toxins, carcinogens, or perfumes, Dryer Dots are safe for those with asthma, eczema, sensitive skin, and allergies. These extra large dryer balls soak up moisture and increase air circulation in your dryer which allows you to reduce drying time by up to 30%. Durable, reusable, compostable - and certified as 99% USDA BioPreferred - they naturally soften over **3000 loads** or 3 years' worth of laundry.

Softens and  
fluffs naturally

# DRYER DOTS™

eco-friendly fabric softener

## DOUBLE YOUR DOWNS

Bring your synthetic or natural down-filled puffer jackets, pillows, and duvets back to life with a gentle tumbling action. Dryer balls stop feathers from clumping together, gently re-fluffing and refreshing the down.

Dryer Dots sustainably soften  
**3000 LOADS**

## LOVE YOUR LAUNDRY

### NATURALLY SOFTEN, SEPARATE, & FLUFF

Ethically sourced Greener Dryer Dots soften fabrics with their gentle tumbling motion. Towels come out of the dryer fluffier and more absorbent without the need for perfumes or chemical residues.

### TAME STATIC & REDUCE WRINKLES

Absorbing moisture and increasing air circulation as they rotate in the dryer, our dryer balls provide smooth and soft results in less time.

### SAVE TIME, MONEY & ENERGY

Reduce your drying time by up to 30%, and never have to buy chemical fabric softeners again. Better for your pocketbook and for the environment.

### FRAGRANCE-FREE & HYPOALLERGENIC

No harmful chemicals, toxins, carcinogens, or perfumes. Greener Dryer Balls are safe for those with asthma, eczema, and allergies.

### DURABLE, REUSABLE, COMPOSTABLE

Softening over 3,000 loads of laundry. Greener Dryer Dots are a biodegradable and sustainable alternative to disposable dryer sheets and liquid fabric softeners.

### USDA BIOPREFERRED

Dryer Dots are USDA certified to be 99% biobased and composed of renewable resources.

### FABRIC-FRIENDLY

Will not bleed, stain, or transfer onto your laundry. Gentle on all dryer-friendly fabrics including bright whites, activewear, handknits, and delicates.

### EASY TO USE

Simply toss them into the dryer and run the cycle as usual. We recommend using 3 balls for a normal sized load, and 6 balls for bulkier loads. To add a subtle natural scent to your laundry, use a few drops of essential oil on each ball.
