## ABOUT US

Born in 2008, from a journey of solo-travel and self discovery, we exist to introduce the fashion industry to ethical jewellery and accessories that won't cost the Earth.

## HOW WE CREATE

We are a small team based along the South Coast of the UK in the seaside town of Bournemouth. We work closely with a studio in the heart of Bali, where we have a full time designer and part-time group of outworkers who create Pineapple Island jewellery as a second income. We work collaboratively with our Bali studio to create ethical and affordable jewellery for our customers so they can look good and feel good!

We strive to maintain trustful relationships with our makers in Bali, and we have external audits to ensure that Ethical Trading standards are met. All employment is freely chosen and wages meet the national legal standard alongside fair working hours.
