Ruled by the Planet Neptune and with the element of Water, those born under this sign are creative and deeply intuitive. This sign is represented by the two fish, swimming in opposite directions. This symbolises your constant tussle between imagination and reality. Extremely intelligent with a strong moral compass, you are sensitive to others emotions and can often rely on your gut instinct. Your precious stone is Aquamarine. Just like your power colour, this stone will align with your deep emotions and offer a sense of serenity.
