

bee fayre

inspired by nature

2022

My love for nature germinated in me as a young girl and I've become ever more enraptured as I get older.

It began with the birds and curiosity led me to the bees!

Our bees, wasps, butterflies and moths are all in need of serious protection as their populations have drastically plummeted in recent years.

Here at beefayre we donate 3% of our profits to bee conservation, and at our base in Leicestershire we've created thriving bee meadows - providing successful habitats for a variety of species.

We have improved this project year after year and our species list proves what can be done with a small amount of land.

I'm incredibly grateful to all the people who have supported beefayre along the way - may we continue to grow and restore our environment together for many years to come!

Thank you

Artist & Founder

our collections

candles & diffusers

beefayre fragrances are inspired by nature and carefully selected to cover a wide range of scents. From fresh herbs and invigorating citrus, to delicate florals and spices, we have something to suit everyone.

The beefayre core collection has ten beautiful fragrances, all containing quality essential oils renowned for their therapeutic benefits. Added to this is our ever popular Mummy Bee collection, which is a perennial favourite! There are also four additional scents in the winter collection, with something to suit each palette and every mood.

Our scented candles are made from 100% pure, natural plant wax, cotton wicks and recycled printed glass. We never use petrochemical wax, which releases nasty toxins into the air we breathe and with exceptional burn times; our candles are great quality and value!

Our diffusers combine the highest quality, alcohol free, base oil with our bespoke fragrances, and come with natural reeds to gently perfume a room.

our collections

bath & body

We believe natural is best when it comes to skincare, so we use only the best ingredients available.

Our hand creams match our bath & body scents, both have wonderful moisturising and nourishing properties. We have a wide range of scents in our organic soaps and we have 8 lip balm flavours to choose from.

greeting cards

Enjoy Sharon's fabulous illustration of the classic bumblebee in glorious gold detail on our stunning greetings cards. Available in colours to match our collections.

art prints

All mounted, backed and signed by Sharon. These prints of Sharon's original work are produced with colour fast inks on art stock paper.

Our mounts are sized to fit standard frames, so easy to order online and frame yourself. Small clip framed prints are also available in sets of 3.

our ingredients policy

Here at beefayre our aim is to produce quality products that don't cost the earth- Literally!

- We are passionate about responsible sourcing of ingredients with no parabens or silicones.
- Our candles are made using a blend of natural plant wax from a sustainable source. We do not use palm oil.
- Our products are manufactured in the UK.
- Our products are suitable for vegetarians and our candles are vegan friendly.

art prints

I've always loved drawing and painting from a young age. During my life I've been fortunate enough to make my living from my passion.

We are currently in the process of introducing a collection of giclée prints of my favourite drawings.

This is a project in progress so please refer to our website - beefayre.com (plus link to art) so please take a look!

Sharon Lewis

Portrait Prints 40cm x 50cm

RRP £35 each

All prints personally signed by Sharon. More colours and designs available.
Go to our website for our collection.

A central white beehive with a gabled roof and a small entrance hole at the bottom. It is surrounded by detailed black and white illustrations of various bees (bumblebees and honeybees) and flowering plants (roses and other wildflowers). The background is a solid teal color.

Beefayre is passionate
about British wildlife
and conservation, with
products inspired by
nature and the plight
of our bees and other
pollinators.
