**Clockwork Soldier specialise in paper activities and craft kits. Providing fun and challenging projects as a welcome distraction from digital toys.**

Inspired by nostalgia, we make fresh and creative gifts and games that will keep both children and adults entertained. Our products encourage everyone to use their creativity, learn and have fun. With our products and a little imagination children can do almost anything, including travel to the moon, enter a magical world, or roam the earth as dinosaurs. Great for rainy days or parties!

Each kit contains a project to build or create, something to use, play with or display. They also include fun activities and interesting facts to learn along the way. The icons on the back of the pack explain the learning benefits each product has to a child, which is so important for young developing minds. Our impact on the environment is of great importance, so we only use FSC certified recycled paper and card with some of our products utilising the packaging into the product for minimal wastage.
