Internal Jewellery

Threadless Jewellery

STEP 1
Insert the pin
half way in to the shaft.

STEP 2
Bend the pin slightly

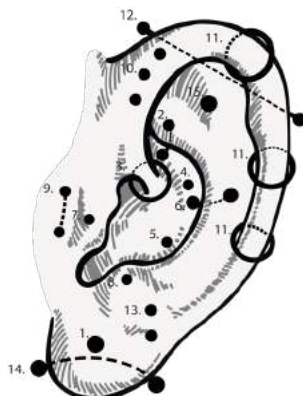

STEP 3
Push in the removable end to close.
The bent pin straightens out inside the shaft,
creating a spring tension force that
holds the two pieces together.

STEP 4
Pull apart both ends to remove.
If jewellery is tight, add a slight
twisting motion.

Ear Piercing Guide

SEMI – PRECIOUS

AMETHYST

The Stone Of: AQUARIUS

Amethyst, also known as the third eye stone, supposedly carries an array of powerful properties, ranging from protection to positivity. The iconic purple hue stone is said to guard against negativity and activates spiritual awareness, as well as helps to transmit love and harmony. It is also known for its mental and physical detoxing powers.

AQUAMARINE

The Stone Of: PISCES

Aquamarine is said to emit calming energies to reduce stress and calm the mind. It supposedly spreads tolerance to others to reduce judgementalism, giving positive energy to those in need. With its calming mind properties, many believe Aquamarine helps with sharpening intellect and intuition.

BLACK AGATE

The Stone Of: GEMINI

Despite Black Agate's mysterious and elusive appearance, the stone is known to bring stability, and can help ward off dangers and darkness. It is also supposedly used to protect the subconscious from bad dreams, and promotes balanced emotions, strength and courage. Also known as the stone of harmony, it is said to equalise positive and negative energy.

CITRINE

The Stone Of: HAPPINESS

Citrine gets its name from the Greek word 'citron' because a lot of the earlier Citrine stones used to resemble the sunny yellow colour of citrus fruits. Its warm, glowing hue is said to emit optimism and cheerfulness, making it a stone often used to assist with positive thinking. It is also thought to bring manifestation properties to help achieve future goals.
