

# LED GLASS LAMPS

## 2025 RANGE

### The Snowies

An inner layer of silver paint is applied to the glass to reflect the light back inside the lamp to stop it from being absorbed by the outer layer, a choice of either elegant satin-effect Christmas Crimson or Forest Green. Then the design is burned off by laser back to the glass to reveal the bright white light from the dozen or so internal LEDs. The final touch is to line the inside of the glass with a frost-effect film to give a glittering, icy sparkle to the whole scene.

Santa, Christmas Crimson  
**SNSTR 001 L – 20cm**  
**SNSTR 001 M – 17.5cm**  
**SNSTR 001 S – 15cm**

#### Specifications

- Dual layer satin-effect finish
- Laser-etched design
- Glistening frost-effect
- 8 - 12 Bright White LEDs
- High quality moulded glass
- 6-hour daily repeating timer
- 3 x AA batteries required

#### PRICES

(mixed items)	1+	8+	16+	24+
Large	5.40	5.00	4.60	4.20
Medium	5.00	4.60	4.20	3.80
Small	4.60	4.20	3.80	3.40

Snowflake, Crimson  
**SNFTR 001 M - Medium**

Santa, Forest Green  
**SNSTG 001 M - Medium**

PRICES (mixed items)	1+	8+	16+	24+
Medium 17.5cm	5.00	4.60	4.20	3.80

## ▲ Sparklers

A sophisticated Frost-effect film lining the lamp splits up the light from the dozen internal warm white LEDs into a myriad points of light which then frame a variety of Winter scenes, giving a bright glistening frost effect to the entire lamp. The high-quality moulded glass has a thin layer of an iridescent film, and this discrete rainbow sheen is enhanced by the two-tone light from the LEDs which display gentle shades of lilac and gold throughout the sparkling frosted landscape.

Deer Park Sparklers

- SPWINT L – 20cm
- SPWINT M – 17.5cm
- SPWINT S – 15cm

### Specifications

- 3 sizes available – 20, 17.5, 15cm
- Iridescent tint
- Glistening frost-effect
- 8 - 12 Bright White LEDs
- High quality moulded glass
- 6-hour daily-repeating timer
- 3 x AA batteries required

Medium Small

Cosy Cabin Sparklers

- SPCABT M – 17.5cm
- SPCABT S – 15cm

Prices (mixed items)	1+	8+	16+	24+
Large	5.40	5.00	4.60	4.20
Medium	5.00	4.60	4.20	3.80
Small	4.60	4.20	3.80	3.40

## TWO NEW DAZZLING HOLOGRAPHIC FILMS NOW ADDED TO OUR SPARKLER RANGE

Joining our existing Frost film range are a new set of Sparklers, each lined with one of two new special effect films that split the light from the LEDs either into an array of Stars or gleaming flurries of Snow.

**Star film** – here the white LEDs shine as a cluster of 3-dimensional stars floating in the bright moonlit scene of a Winter Forest, whilst the multi-coloured LED version show the stars in a colourful riot of bright, pastel shades suspended in space.

**Snow film** – the Snow film splits the LEDs into a glittering array of points of light, like bright flurries of snow shining through the glistening wintry forest scene.

**Frost film** – hundreds of thousands of tiny prisms on the Frost-effect film refract the light from the LEDs into a sea of glistening points of light, like sun on freshly falling snow. See the page opposite for more about these.

Star film - Winter Forest  
Medium - 17.5cm

Snow film – Winter Forest  
Medium - 17.5cm

Frost film - Deer Park  
Medium - 17.5cm

Prices (mixed items)	1+	8+	16+	24+
Medium	5.00	4.60	4.20	3.80

# Glass Twinklers

With a similar manufacturing process to the Snowies mentioned elsewhere, the Glass Twinklers retain the highly reflective metallic silver paint applied to the outside of the glass, and this then has the laser-etched design burned off it to take it back to the plain glass through which the amazing light display can be seen.

A dozen LED beads flash in 6 different colours independently whilst scrolling through 3 randomly varying flicker speeds, the light from which is multiplied many times over by the endless internal reflections that fill the lamps with a kaleidoscope of colour. Lovely enough in the light, in the dark they project a wild and ever-changing display onto nearby surfaces. Size 15cm x 8cm.

**A 6hr daily-repeating timer function is included – 3 x AA batteries required.**

## Specification:

- Laser-etched design
- Multiple reflections
- Image projection
- 12 internal LED beads
- 7-colours in each LED bead
- 3 random sequential flashing speeds
- High-quality moulded glass
- 6-hour daily-repeating timer
- 3 x AA batteries required

## The Twinklers

Fantasia GT FAN

Flower GT FLO

Winter GT WIN

PRICES (mixed items)	1+	8+	16+	24+
Flower GTFLO	5.00	4.60	4.20	3.80
Winter GTWIN	5.00	4.60	4.20	3.80
Fantasia GTFAN	5.00	4.60	4.20	3.80

## Frosty Twinkler

Winter Forest GTF FST

Closely related to the Twinklers above, the Frosty Twinkler has flashing bright white LEDs, and the inside of the lamp is lined with the same glittering frost-effect that we use in the Snowies and Sparklers in the preceding pages. The pulsing light show is framed by a laser-etched Winter Forest design in a metallic silver finish. 6/18 hr timer included.

PRICES	1+	8+	16+	24+
GTF FST	5.40	5.00	4.60	4.20
