# Meet Warmies®

**Warmies®** was established on a straightforward belief: that everyone deserves to experience comfort in their daily lives. At the core of our mission is the goal of inspiring wellbeing, as mindfulness in wellness contributes to a better quality of life. Our products deliver soothing warmth and fragrant comfort suitable for all ages; they are safe and cherished by everyone.

**Warmies®** are designed to be fully heatable, incredibly cosy, and delightful to the touch. They help alleviate stress and anxiety, encourage restful sleep, and are thoughtfully weighted to create a calming and uplifting sensory experience. For a different soothing option, they can also be placed in the freezer.

Our **Warmies®** products are lightly scented with genuine dried Lavender sourced from growers in Provence, France, and filled with natural grains, ensuring an ideal sensory experience. With stunning designs, luxurious fabrics, accessible pricing, and a commitment to charitable initiatives, it's clear why **Warmies®** are cherished across the globe.

## The safest snuggle

As the world's largest supplier of fully microwavable heat packs, **Warmies®** quite literally set the standard for safety in the industry that they created. Please beware of imitations.

We have an unblemished safety record. We have spent over 18 months developing a series of treatments for millet to ensure it is safe to use again and again over a long period of time.

All **Warmies®** products exceed the relevant safety standards including:

- British safety standard BS8433:2004
- European toy safety standard EN71-1/2/3
- European NB toys Protocol No. 5
- American toy safety standard ASTM-f963-17

The founder and CEO of **Warmies®** was the expert committee member on the BSI panel that introduced the British Standards Institute safety standard for personal warmers (BS8433:2004).
