FABULOUS AND FAIR TRADE

At Earth Squared, fair trade is why we started and continues to be at the heart of what we do.

We have worked with artisans in Vietnam for over twenty years, and are proud to be a member of BAFTS British Fair Trade Network and a verified B Corp.

Sustainability

At Earth Squared we aim to put people and planet first which is why sustainability is so important to us. All of our fashion products use lining material made entirely from recycled plastic bottles and this year we are delighted to introduce a number of new ranges which use recycled outer yarns including our Tweeds and the Weave collection made entirely from ocean plastic waste.

Further, all handbags, purses and accessories will arrive with you in entirely biodegradable, compostable, recyclable and marine friendly Eco Garment Bags. This innovative packaging made from Hydropol TM biodegrades entirely after use – so that products reach you in perfect condition but with zero end of life problems.

B Corp Certification

We are delighted to be B Corp certified – a certification which means we balance purpose and profit and are legally obliged to consider the impact of our decisions on the environment as well as our customers, workers and community.

As part of the certification, our processes and supply chain have been assessed by B Corp which has been a great way of learning our strengths and weaknesses, and growing as a responsible business. And by buying from a B Corp you can be assured that you are supporting a business committed to make a positive difference to the world around us.

Giving back

We support a number of environmental initiatives in conjunction with GetGreenspark, all with the aim of reducing the impact of our carbon footprint. Since starting these initiatives –

- Our CO2 offsets are equivalent to: 512 Roundtrip flights from London to Los Angeles worth of carbon saved.
- Our collected plastic is equivalent to: 147,300 Disposable coffee cups worth of plastic saved from landfill.
- The trees we have planted are equivalent to: 2,960m² of forest area.

With lots more still to do...!
