WELCOME

Hello

Welcome to Sunshine Lane, your go-to destination for all things self-care and positivity.

I, Emma, founded Sunshine Lane in 2019. It all started with my personal journey through chronic illness and being diagnosed as Autistic at age 30, all of which opened my eyes to the true importance of self-care. I realised that self-care isn't a luxury as it is often presented; it's an absolute necessity for a happy and healthy life. And I was inspired to bring this message to people's everyday lives.

At Sunshine Lane you'll find stationery and gifts that have been thoughtfully designed with care and intention from my home studio in England. I strive to combine fun designs with practical functionality to create items that serve as gentle reminders to prioritise self-care and embrace the little moments of joy in each day.

I'm inviting you to explore our wholesale catalogue, where you'll uncover the inspiring appeal of our products. Let's join together and help to inspire self-care in others, spreading positivity with every beautiful item we share.

Take care,

Emma

- The journal's cover is constructed from 350gsm silk cardstock with a soft-touch lamination

There are 365 reflective journal prompts within this journal. You may, therefore, choose to answer a question per day. This is a great approach as it helps you to carve out some time each day to pause and focus on you - something we could all do with a little bit more of.

Alternatively, you can choose to complete this journal at your own pace. For this reason, I have left the journal undated. It's your journal, which means you get to make the rules. You may be inspired by particular questions on certain days, so use the prompts in whatever order feels best to you.

MY WELLBEING JOURNAL

Product code: PLA/MWJ
Price: £6.67 // RRP £16

My Wellbeing Journal is a daily companion that helps individuals to prioritise self-care through thoughtful prompts, gratitude exercises, and helpful trackers.

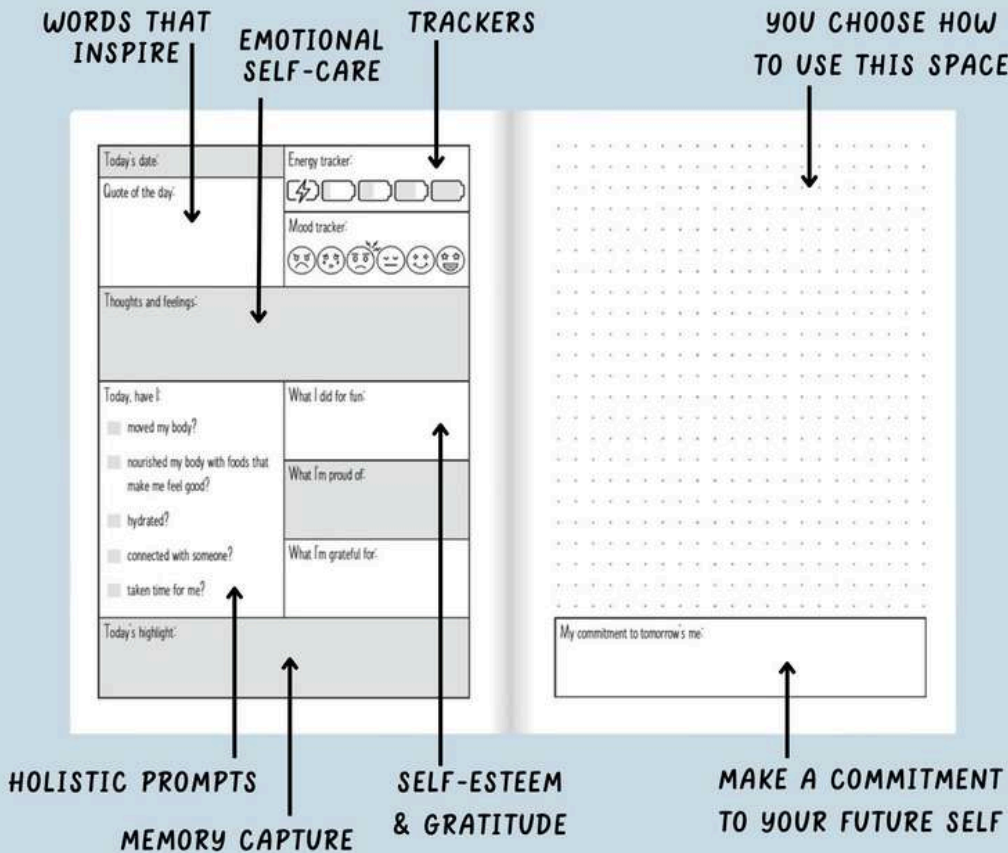

- Size: B6 (125 x 176mm)
- Inside pages are printed on 120gsm paper
- The journal's cover is constructed from 350gsm silk cardstock with a soft-touch lamination

This daily journal is designed to help you make yourself more of a priority and bring more self-care to your daily life. By setting aside just a few minutes each day to reflect and engage in activities that promote self-care, you'll be able to reduce stress, improve your mood, and feel more energised and fulfilled.

The My Wellbeing Journal is filled with prompts that are designed to help you explore different aspects of self-care and wellbeing. From gratitude journaling to mood tracking, wellbeing checklists to journal prompts, this journal helps you take a holistic approach to self-care.

TWO PAGES PER DAY

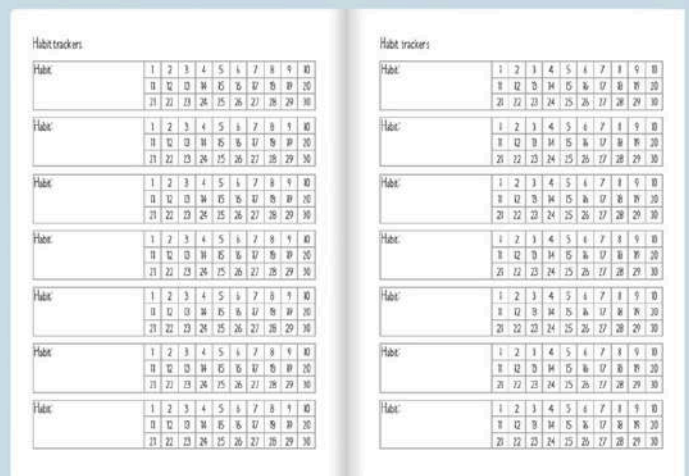

The journal is designed with a day-on-two-page layout, with enough pages to cover a 3-month period. However, the pages are undated. So if you miss a day...no problem! Just pick up where you left off and the journal will last you a little longer.

Sometimes a blank page can be intimidating, so the journal has been designed with prompts to guide you to think about different areas of your wellbeing.

There is also an empty space in each spread for you to use how you wish. You might choose to expand more on your thoughts and feelings, explore a journal prompt or do something creative - use the space however best suits you on each day.

If you also want to try to implement habits that will help improve your wellbeing, there are 3 pages of habit trackers in the back of this journal for you to use.
