# Why We Care

Dedoles is a Slovak company full of colourful pieces with all kinds of original motifs. At present, we bring joy to 15 countries, and we have already made more than 3 million customers happy. Dedoles' vision is to make this world a better place. And not only through our cheerful products but also through other activities we undertake. Together with our amazing customers, we can support projects aimed at environmental protection, education, the fight against the climate crisis, or helping people with disabilities and socially disadvantaged groups. Thanks to the Dedoles Change that our customers contribute with their purchases, we are able to create a better and healthier future for everyone. We want to leave the world more beautiful, not the other way around.

The core pillars of the Dedoles brand are to bring joy and celebrate diversity. The design of our products, therefore, honours human creativity and allows customers to express their uniqueness through our colourful motifs. The key attributes of the products are comfortable material and fit, timeless design, and reasonable price.

“We want to  
bring joy.”

# Story of Dedoles

## 2011: Establishment of the company

by the CEO, Jaroslav Chrapko, who is the main ingredient in the Dedoles success recipe.

## 2012

For the first time, we launched our products abroad in the Czech Republic.

## 2014

Our very first collection of bamboo socks was introduced.

## 2015

We launched sales in two other countries - Austria and Hungary.

## 2018

The first collection of mismatched socks was designed. Interestingly, some of them are still available.

## 2022

We made our customers happy with new product categories, such as new cuts of socks, umbrellas and raincoats, and a traceless collection of women's underwear.

## 2021

By the end of the year, we crossed the 3 million customer mark.

## 2020

New Dedoles logo and corporate design were created, including hamsters starring in the leading role. This year, we launched our first summer and winter collections.

## 2019

We added underwear for adults and kids' socks to our product range.

# Portfolio Development

At first, almost everyone associated Dedoles with mismatched regular socks, each of which was different, but together they made a perfect pair. Along with colourful underwear and new sock styles, such as ankle socks, knee-high socks, stockings or nylon socks, we were gradually introducing pieces from summer and winter collections, activewear collections of leggings, bras and accessories, as well as a rainy collection of umbrellas and raincoats. We are constantly trying to expand our product portfolio - not only in terms of fit but also in terms of material and design. The main goal of the carefully designed Dedoles themes is to make the day brighter. In the vast offer, every customer will find something they like - whether it is their favourite food, hobby, or animal. Last but not least, we are always looking for certified manufacturers to ensure the best quality for our products.

# Crazy Regular Socks

Being made of high-quality cotton, Dedoles regular socks are soft, breathable, absorbent, and hypoallergenic. As they feature colourful patterns of all kinds, the socks can be easily matched with the rest of the outfit. The regular length is ideal for colder days, so they are perfect for the months of autumn and winter.

# Crazy Bamboo Regular Socks

Stylish, cheerful, and comfortable. We are talking about the Dedoles regular socks made of bamboo fibres. Bamboo is a fast-growing plant and one of the best renewable natural resources, which means these socks are environmentally friendly, too. When it comes to their cut, bamboo socks have the same length as classic regular socks, making them ideal for colder days.

# Crazy Ankle Socks

As the weather warms up, it is time to switch to lower socks. The collection of Dedoles ankle socks, the same as other categories, includes favourite themes inspired by everything around us. Made with a blend of cotton, polyamide, and elastane, these socks are not only breathable but also ideal for the spring and summer seasons.
