# Åtenåi London

Our mission is to elevate everyday rituals into immersive,

mood-enhancing experiences through the power of scent.

We create fragrance-led body and home collections that go beyond style—designed to nourish the skin, uplift the spirit, and reconnect you with how you want to feel. Rooted in intentional living and emotional design, our products are crafted with perfume-grade complexity, high-performance ingredients, and a deep respect for well-being.

We believe fragrance should be more than a finishing touch—it should be a beginning.

# Scent Is More Than Style— It's How You Want to *Feel*

For Nuno da Silva, fragrance was never just a finishing touch. It was a beginning—a way to reset the mind, uplift the spirit, and shape how the day feels from the inside out.

But as he searched for products that treated scent as more than a fleeting layer, he noticed something missing: Too many self-care brands treated fragrance like an afterthought. A whisper of essential oil here, a generic aroma there. Nothing with the emotional complexity or intention of true perfume. And certainly nothing that could transform an entire space, body, or state of mind.

So, he asked a simple question:

“Why should we have to choose between quality, mood, and consistency?”

And with that, Atenai London was born.

# Our Signature Scents

Atenai isn't just skincare. It isn't just fragrance. It's a ritual—rooted in mood, built with scent, and designed to let you live inside a feeling.
