SS23

SUMMER BLOOM

A nirvana of exotic prints and ethereal fabrics, this season is spontaneous and elegant – allowing customers to feel free and sophisticated. Powder takes them on a creative journey along leafy trails and through wild woodlands. Hazy and sun-kissed, you can gaze into sunset vistas with our nostalgic sunglasses collection. Femininity emanates from fluid textures and our iconic Powder prints collection evoke a romanticism designed with free spirits in mind.

MEET THE DESIGNERS

Lisa Beaumont

‘Our SS23 designs creatively capture the excitement and luxury of the weekend break. Something playful, with a splash of decadence! I wanted to make the most of our gorgeous textures, as these super-feminine and summery fabrics are amazing for the longer light evenings – a holiday highlight no matter where the wind takes you!

Our range of pyjamas and kimonos are the epitome of this, as they truly evoke the perfect Sunday mood. Combined with our fantastic gifting items and summer style essentials, these will make for a vibrant Powder display in your store this season!’

Charlie Beaumont

‘To feature our Edinburgh/New York connection, we chose to shoot SS23 in a location that embodied the iconic Americana summertime. Shooting the campaign over the 4th July Weekend in upstate New York, we revelled in capturing nostalgic moments. Where home comforts meet long weekends away, our Powder family created feelings of fun and freedom, appreciating the finer moments in life.’
