Handmade jewellery

NEW SPRING SUMMER 2023 CATALOGUE

About us

Handmade in Scotland using a mixture of semi precious stones and glass, Arran Bay jewellery draws from the stunning scenery surrounding the West coast of Scotland, with colours reminiscent of blue skies; rugged landscapes and breathtaking sunsets over the island of Arran. Every piece is carefully hand made in the studio by a small group of skilled makers.

New

For Spring /Summer this year we have kept working with our bright beautiful semi-precious stones but have incorporated a lot of new foil glass beads in different colours. Our new Halo set is made using our own design lampwork foil beads that we have specially made for us, the colours are inspired by our beautiful coastline in Scotland where our studio is based. The materials represent the ruggedness of our landscape and the translucent contrast of our sea against the land.

HL8: Lampwork foil glass, hematite and jasper necklace, 925 silver magnetic clasp. Necklace 18" long, bracelet measures 7.5"-7.75"
