COMPANY PROFILE of SATKARTAR CLOTHING

COMPANY PROFILE

Satkartar Clothing Company (Referred to as SCC in this document) is a leading garment manufacturer in India, at the forefront of design, innovation and full-scale production specialising in producing high-end ladies dress, top, skirt and accessories of the highest quality to high-end global fashion brands across the globe like United Kingdom, Germany, USA, France, Spain, Sweden, Italy, Turkey, China, and Denmark.

Our presence has been in the industry for the past 50 years and has provided us with a robust supply chain of fabric, materials, and technical know-how. We are experts in handling garments manufactured from; Georgette , Moss Crape, Rayon , viscose , Linens both knits and woven, Jacquard silk, cotton etc.

We have a capacity of 2,40,000 units per year with C-TPAT certifications and are also members of SEDEX. Corporate social responsibility plays a significant role in our organisation, and we are involved in several projects that benefit our employees and community. We pay wages equivalent or above minimum wages fixed by the government and provide health insurance to all our workers.

SPECIALISED PRODUCT

We are specialised in manufacturing garments with hand beading or embroidery.

We are acutely aware of the key issues and criteria facing buyers when choosing suppliers such as products specification, quality, lead time, etc.

Our range of garments and Accessories are a perfect blend of quality and creativity. Based on the latest fashion trends in the international market.

We deal in ladies' garments, paying maximum attention to fabric selection, fitting and perfect quality.

- 5.building layout plans

ADVANCE TECHNOLOGY INTEGRATION

We have our full company under the traceability of RFID system.

All the processes and garments are tracked and traced by RFID system, which lead us into more clarity on the productivity output and also in planning the buyer order execution on the factory floor.

It gives us the ease to scan a bulk quantity at once and also leads to a paperless environment around the factory.
