About us

SATCoL is the trading arm of The Salvation Army. We are the largest charity owned textiles collector in the U.K actively working to support organisations reduce their carbon footprint and combat climate change.

Through our various reuse and recycling schemes, we lessen the impact on overflowing landfill sites by extending the useful life of products with a minimising waste approach

How it works

Our take back scheme is a simple and easy to use in-store and online clothing bank solution offering your customers the opportunity to donate their unwanted textiles in store or via a link on your website.

It's the modern approach to charitable donations and an efficient way to combat the throwaway fashion crisis.

Once received by our warehouse, their charitable donations will change lives as the profits received from the resale will be donated to The Salvation Army.

Why choose us?

Our take back scheme is the perfect way to support the circular economy. It's fast, efficient and an easy process that can actively involve your customers in supporting the change they'd like to see.

The Salvation Army Trading Company collects around 50,000 tonnes of textiles each year and thanks to the generosity of members of the public we are able to reuse, repurpose and recycle these donations.

In the last 10 years alone, with the help of the British public, we have donated over £76 million to The Salvation Army.

How the donations help

The profits that SATCoL receives is given to The Salvation Army to continue to support the great work they do such as:

Baby and toddler groups and nurseries

Care homes and older people services

Shelter for those experiencing homelessness

- And so much more:
- 80 hostels (called lifehouses)
 - Protection and care for victims of human trafficking and modern slavery
 - Debt advice centres
 - Employment Plus
 - Family tracing
