# Sustainability Initiatives

As a business, we understand the need for a greener supply chain and are always looking for new sustainable initiative throughout the manufacturing process.

## Our progress so far:

- 40% of our sunglasses range is made from recycled materials. Plan to increase this number year on year.
- Constantly sourcing new recycled materials for handbags including, water-based PU. There is the option to update linings to be rPet Polyester (made from recycled water bottles).
- In the soft accessories department, we can use recycled polyester, recycled nylon, recycled acrylic and recycled wool.
- In terms of packaging, we are able to supply FSC paper hanger/card instead plastic hangers. Care labels can also be made from recycled polyester materials and some customers are starting to use recycled PE bags.
- We are continuously looking for ways to improve and incorporate recycled materials into our ways of working.
