## 泳衣面料 Swimwear Fabric

具有极好的四面弹力、抗皱、不起球、轻柔贴身，同时具有防晒UPV=50.通过将抗紫外线吸收剂和屏蔽微粒均匀嵌入纤维之中，能够高效吸收并屏蔽紫外线辐射，使得纤维具备优异的抗紫外功能，且抗紫外线微粒永久有效，非常适合各类泳衣。

Our swim fabric is four way stretch, anti-wrinkle and anti-pilling, very flattering and comfortable. By adding the anti-UV particle into nylon, the fabric can efficiently absorb UV. The anti UV particle works permanently and has SPF 50+, very suitable for all kinds of swimwear.

## 内衣面料 Lingerie Fabric

面料轻盈，透气舒适，抑菌抗菌，光泽亮丽，富有弹性，伸缩性强，使内衣更贴身，不易走样，舒展自由。

Our lingerie fabric has features of light weight, breathable and comfy, anti-bacteria and sleek finish. It's also very stretchy and has good compression, making the lingerie more flattering and flexible on our body and durable.

## 环保再生面料 Eco-Friendly Recycle Fabric

低碳节能，自然、无有害物质、环保可循环利用的面料，由回收的塑料经冷却集丝而制成的，具有柔软肤感，优良的亲肤性和光泽性，不易起静电，集天然面料的纹理和合成纤维的实用性、功能性于一体。

Our Eco fabric is made of low-carbon, natural and recycle material that has zero hazardous substance. It's milled with yarn that's produced with recycle plastic bottles by cooling and pressing. The fabric has soft hand feel, smooth and flowy, anti-static. Its the combination of natural texture and practicability and function of synthetic fiber.

## 运动面料 Activewear Fabric

集吸湿排汗、高弹、抗起球，耐磨于一体的超细旦纤维任意裁面料，通过纤维截面异形化，增大了纤维的表面积及微细沟槽，使得纤维的回潮率增大，故而具备良好的吸湿排汗功能，柔软舒适，减少运动者身体束缚，适合瑜伽服，运动服等运动服装。

Our activewear is milled of superfine fiber which has the functions of sweat-wicking, four way stretch, anti-pilling and free cut. By differentiating the shape of fiber section, it increases the surface and micro ditch of fiber, making the fabric have good sweat-wicking, buttery soft. The good stretch makes athletes feel more flexible. It's a perfect choice for yoga wear, activewear, gym wear, etc.
