ProSstandard

All-Round Service
Apparel Manufacturer

Build your Fashion Brand with us!

INTRO

Prostandard, established in Taiwan in May, 2006, is a fashion clothing manufacturer with our motto “Professional Innovation” and “Integrity Service.” Having been in the field manufacturing various garments for over 15 years, we immerse ourselves in Taiwan’s practicality culture by infusing functionality and popularity to optimize our products.

Without stopping ourselves in producing innovative designs and styles, we strive to maintain our production quality, integrate upstream with downstream and develop new supply chains all along, in order to satisfy our customer requirements.

SERVICE

We provide service for various fashion brands, big or small, either in their starting phase or expanding stage. Even if you lack experience designing fashion garments, we are here to assist you in sourcing fabrics, building size range and finally fulfilling your designs.

Service Process

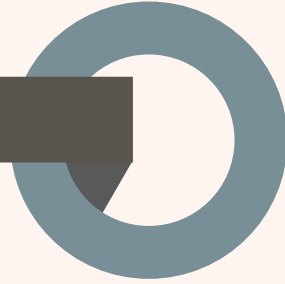

01

Consultation

Communicating and understanding customer needs and requirements

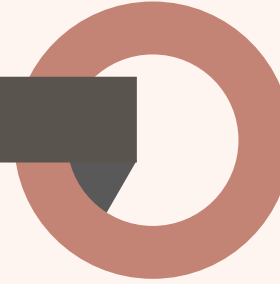

02

Quotation

Precise quotation based on detailed and well-considered communication

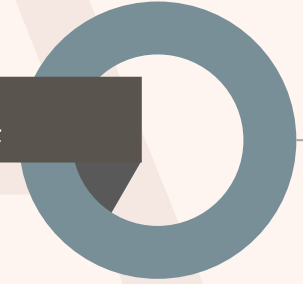

03

Sample Making

Sample making after payment, completed within 10 to 14 days

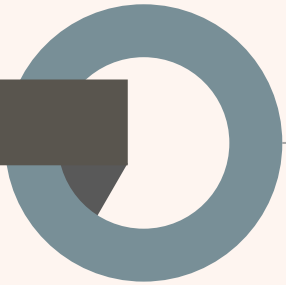

04

Placing order

Confirming the final samples and receiving purchase order, artwork and the down-payment

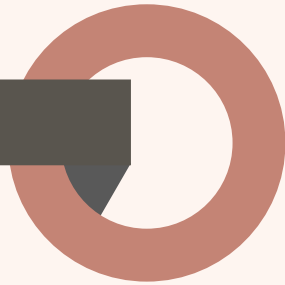

08

Support

We provide after sales service to help our customers with defective products.

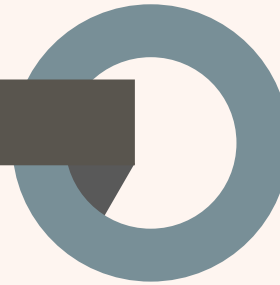

07

Shipping

Shipping by our trusted shippers, air or ocean freight

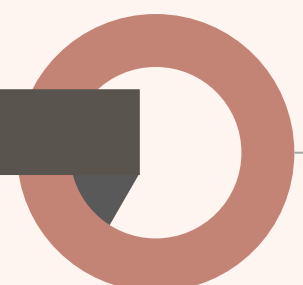

06

Production

Production process proceeding after payment, completed within 30 to 45 days

05

Customization

Elevating brand identity by customizing clothing labels, tags, packaging, hardware and garment accessories

Consultation

- To understand your ideas and requirements, our team will communicate with you, and plan fabrications and suitable workmanships to make your designs to life.
- Figure out what you prioritize in the deal. Quality, price or lead time?

01

Quotation

- Minimum order is from 300 pieces per style.
- The quote includes main fabric trim, polybag and anti-moisture paper; EXCEPT main label, size label, care label, hangtag, packing materials, special inspection and delivery.
- To get more accurate quotation, the following information is needed.

1. Pictures/Sketches/Tech Packs
2. Quantity
3. Size Range
4. Target Price

02

Sample Making

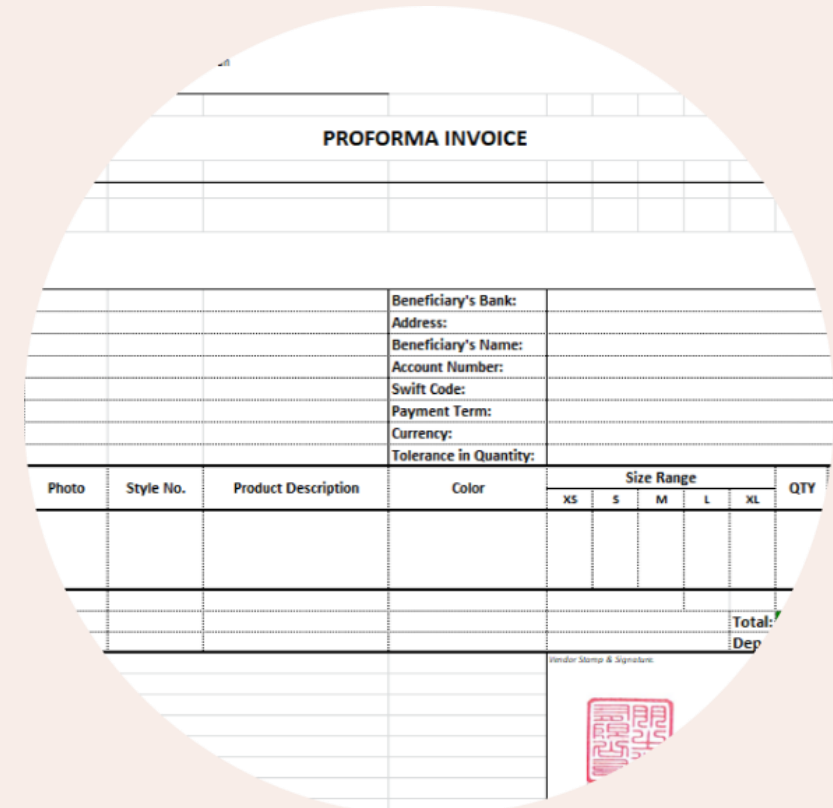

- The sampling is charged three to five times the price of the finished product. Once the order confirmed, the charge will be deducted from deposit.
- Sampling lead time is 10-14 days.
- The fit samples will be the standard for product quality and inspection.

03

04

Placing Order

- After final sample is approved and receiving purchase order, artwork and the down-payment, the manufacturing process officially begins, taking approximately 30 to 45 days to complete.
- Lead time might be varied if the fabric is unavailable.

05

Customization

- Assist to create personalized clothing labels, tags, packaging, hardware and garment accessories to elevate brand value.
- All custom materials should meet the set MOQs.

06

Production

- Purchasing

Purchasing fabrics, trims, and other materials needed.

- Grading

Create a range of sizes for the style produced.

- Mass Production

The standard of product quality is assessed in accordance with that of the pre-production samples and production notification.

06

Production

- Quality Control

Standard inspection process will be carefully walked through by our professional QC team. Shipping samples will be provided one week before delivery. The quality of shipping sample is on a par with the bulk products, also treated as the shipping approval.

- Packaging

All finished products will get ironed and untrimmed threads removed before packed.

07

Shipping

- Offer different delivery options to suit customer budget or requirement.
- Use various couriers like UPS, DHL, Fedex to ship orders by air freight.
- Shipping time reference:

Express: 3-5 Days

Air Freight: 7-15 Days

Sea Freight: 20-45 Days

- Do note that delivery time varies by delivery location and ocean freight takes longer than air freight.

Support

- Repair any garments or provide refunds within ONE YEAR of purchase due to manufacturing defects related to materials and workmanship.
- This warranty does not cover damage by normal wear and tear of colors and materials used over extended time, misuse, improper care, neglect, accident.

08

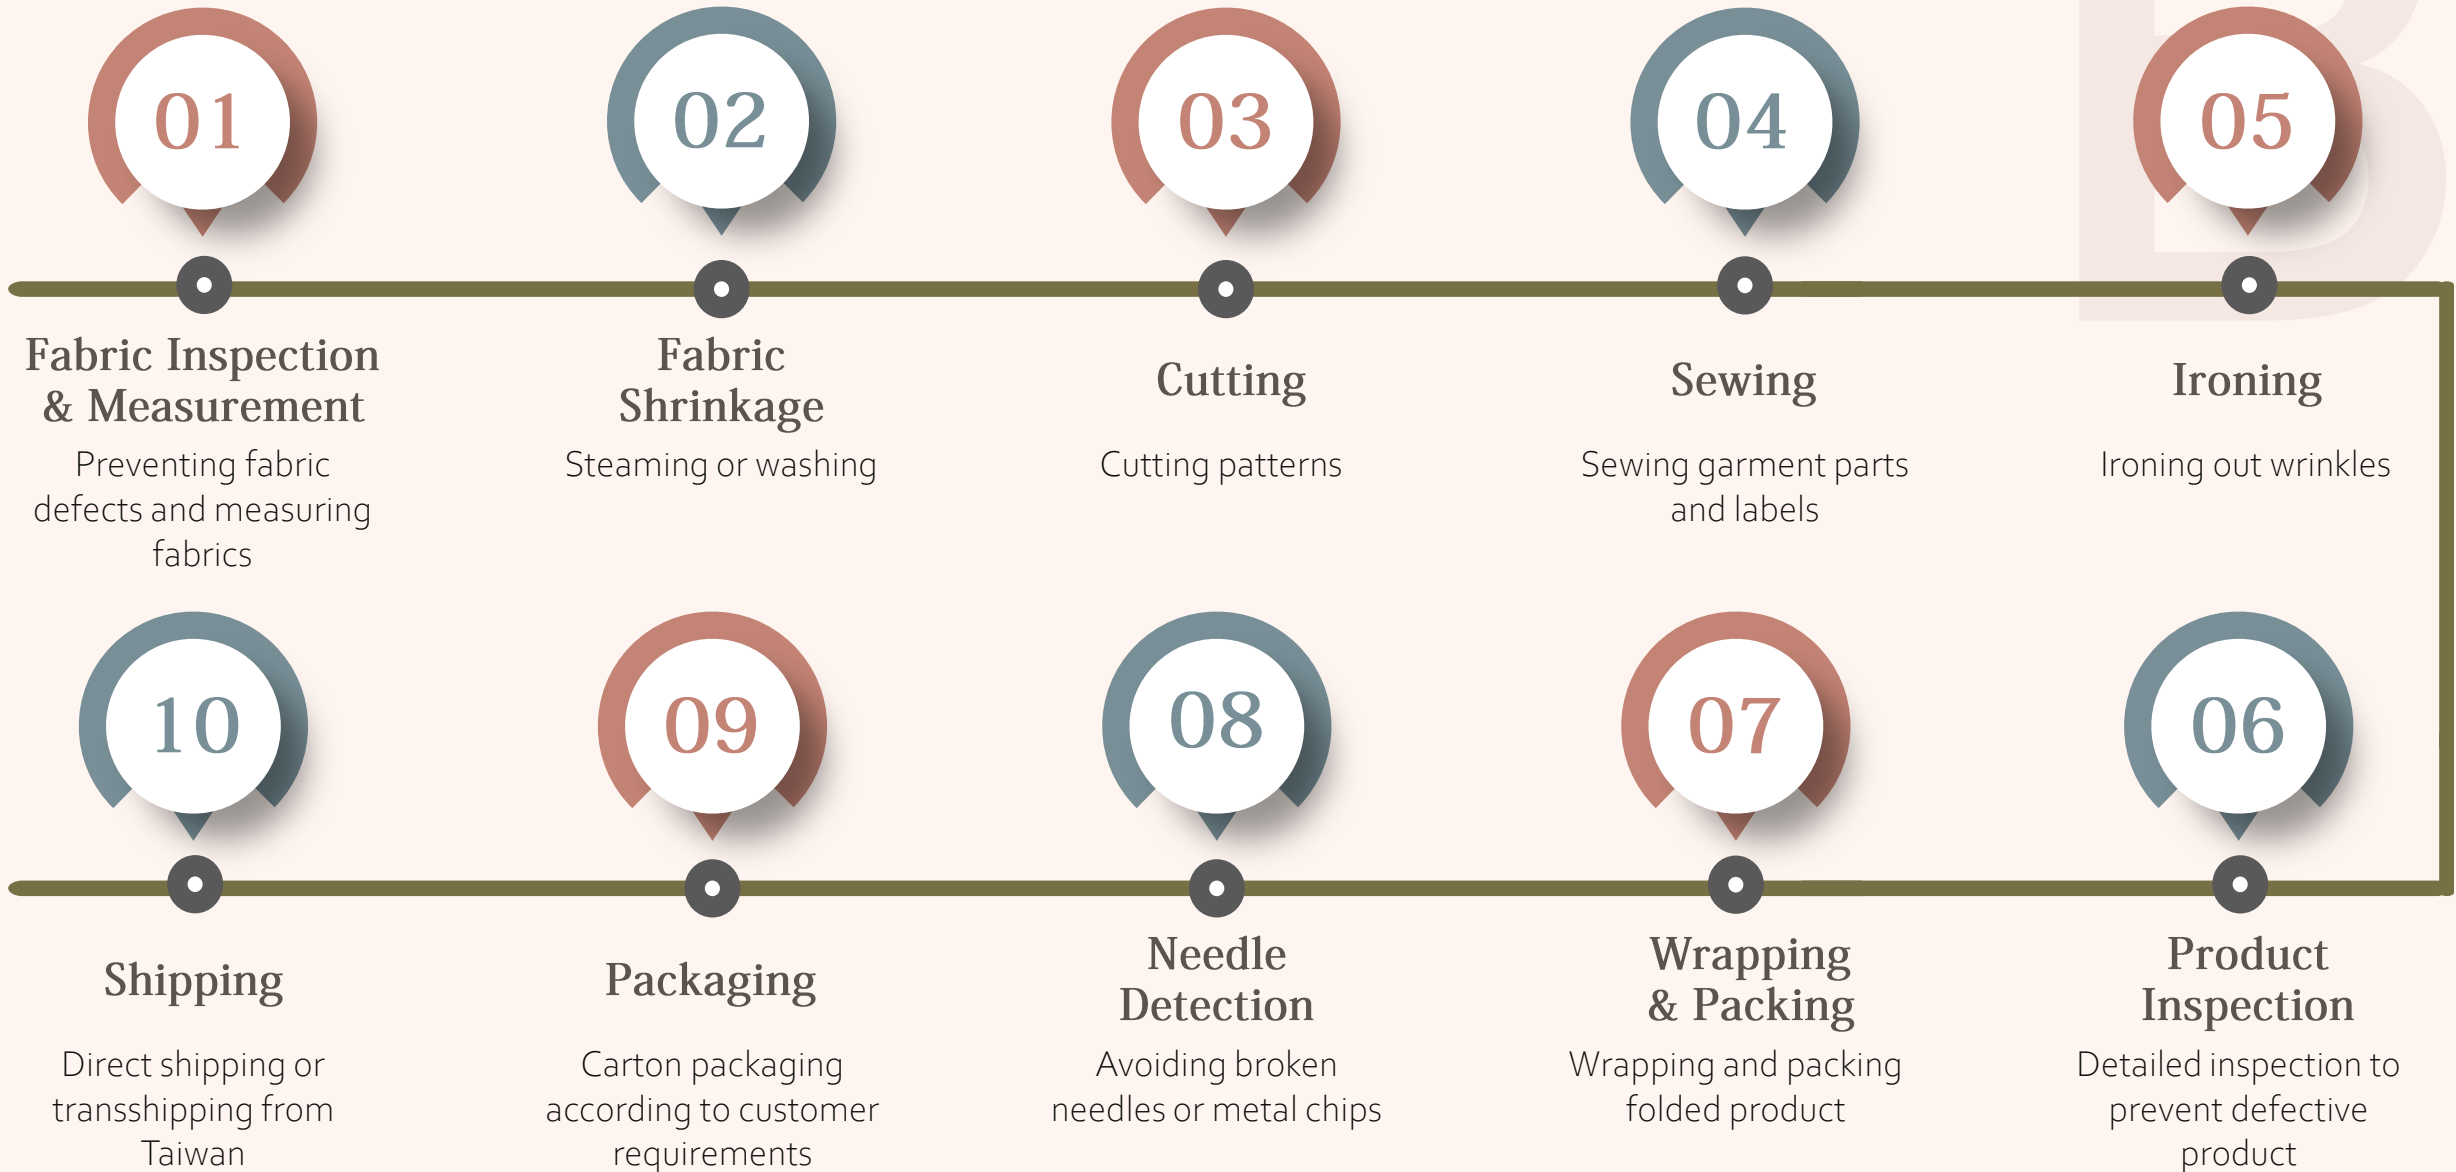

MANUFACTURING

You **define** the style.
We **refine** your quality.

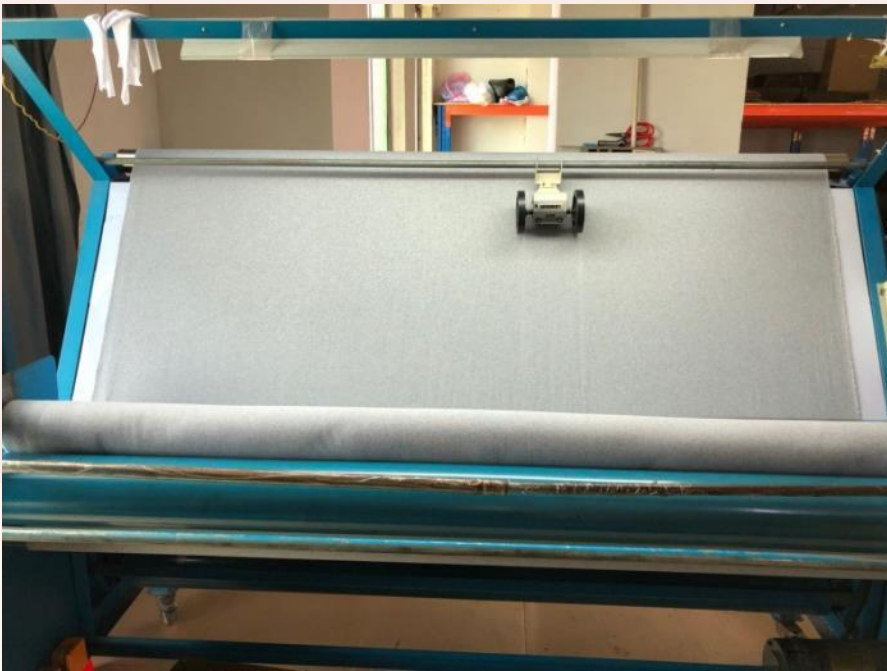

Manufacturing Process

Fabric Inspection & Measurement

- By mechanical rolling of fabric with adjustable speed control, the staff can easily inspect the quality of fabric to avoid any possible shade difference or defect, while fabric length is also measured in the same process.

01

Fabric Shrinkage

- Fabric shrinkage is primarily processed by steaming (washing can be otherwise arranged).
- For obtaining stable shrinkage rate, after steaming fabric should be air dried.
- Though the time of shrinkage can be adjusted, we recommend longer time to ensure quality.

02

03

Cutting

- Pattern pieces of the style are created by our design team according to the order's design and fit.
- Fabric layering is measured for the fabric to be stacked in a proper height for smooth cutting.
- Marker making is done on the fabric to be cut into garment components.
- Equipped with automatic fabric cutting machines to enhance the production efficiency and accuracy.

04

Sewing (Woven Fabrics)

- Sewing section I is in charge of sewing woven fabrics, where garment components and labels are sewn into finished products.

04

Sewing (Knit Fabrics)

- Sewing section II is in charge of sewing knitted fabrics, where garment components and labels are sewn into finished products.

Ironing

- Finished products are steam ironed to remove creases for a fresher look and smooth packaging.

05

Product Inspection

- Finished products are put through final inspection for defect such as skipped stitches or untrimmed threads.

06

07

Wrapping & Packing

- The process includes tagging , folding with anti-moisture paper and poly bagging.
- 10 bags are packed into a bundle for easy counting.
- Order over 10 bags in same color and size are cross-strapped into a bundle , while those under 10 bags are single-strapped.

08

Needle Detection

- To ensure product safety and quality, finished products will be put through needle detection before bundling to avoid broken needles or metal chips.

Packaging

- For customers without custom cartons, we offer brand logo stickers on box.
- Shipping marks are placed on the sides of carton.
- The order of packaging is as follows: first, item in solid color and size; second, solid color and assorted size; and last, assorted color and size.
