MILITARY TROT

PREPARED TO SERVE WITH EXCELLENCE

We develop military uniforms and equipment with a single objective: to respond with precision, resistance and functionality to the demands of the terrain. Our commitment to quality, durability and comfort translates into innovative textile solutions designed to serve those who protect, defend and guarantee the safety of us all.

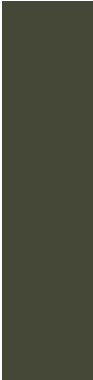

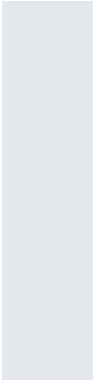

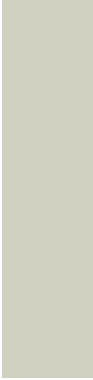

This catalog brings together our most robust, technical proposals adapted to the needs of the armed forces, security forces and special operations. From tactical clothing to footwear, including accessories and complementary equipment, each product has been carefully selected to guarantee performance and confidence in any mission.

TROT.
WEAR THE FORCE. EQUIP THE MISSION.

NEVOA PRO

NEVOA PRO BEYOND THE STANDARD

Nevoa Pro develops military footwear with a commitment to going beyond what is required by the rules. It creates models that strictly comply with official regulations, but goes further — optimizing every detail to offer more comfort, more resistance and more innovation.

Its collection ranges from certified combat boots to unisex ceremonial models, produced in Portugal and tested by accredited European bodies. For national and international forces that demand not just compliance, but real performance in the field on land, in the air and at sea.
