

## vertical textile group / quality garments / sustainable processes and ethical practices / woven and circular-knits fabrics

### The Group pag.02

We are a vertical textile group operating since 1981, located in northern Portugal, with 3 full-service garment manufacturers in Braga and Barcelos – Gabritex, ALEC Garments, GBTX sewing units in the region and a dyeing & finishing house in Barcelos.

The Group

pag.03

**We focus** our expertise in delivering quality garments by premium service, manufacturing with sustainable processes and ethical practices, serving a growing range of market segments - from new-born to adult, in fashion and ready to wear, sports and technical, in both woven and circular-knits fabrics - exporting globally, and assisting our clients and partners throughout the whole development and production stages, from initial design up to exporting their orders.

An experienced team of over 400 professionals, working in 6 units, equipped with the latest advancements of industry 4.0, with automated sewing machinery to complement our experienced seamstresses, and high-quality in-house finished fabrics. As a team, we're capable of being flexible in adapting to our client's manufacturing needs and challenges, while being reliable with our mutual commitments, without compromising the quality of a finished garment, that we developed and manufacture according to current sustainable standards. We achieve this by providing working conditions that are renowned in our local communities, to whom we give back through our programs of sponsorships and donations.

At Alec Group we have a commitment to bring circularity, social responsibility as pillars that define our communal footprint. In the same way we aim to support local arts & crafts artists.

As so, we materialized this concern's in three complementary programs:

Beyond Circular, Beyond Social and Beyond Creativity.
