SUSTAINABILITY (CIRCULARITY)

We understand and implement responsible practices towards the environment and community.

Sustainable Materials:

- Sourcing and utilization of sustainable raw materials

Manufacturing waste to landfill:

- Working with organizations such as Ambercycle, IBM, GmbH & GAIN program.

Environmental:

- Converting manufacturing facilities into solar energy up to 50%.
- In process of replacing diesel boiler with electric boiler to reduce energy consumption by 15%.
- Water Effluent Treatment Plant helps to reduce and recycle waste-water by 10%.
- Laser / digital finishes to save energy, chemical and water consumptions above 65%

CSR Initiatives:

- Mental Wellness, Women's Empowerment program, Training and Permanent jobs
- Digital Worker Payment

Tag n Trace:

- Last but not the least, we have the capability to tag and trace every kind of cotton through Certain T. This capability guarantees the trust of global cognizant consumers who care for environment and sustainability.
