## INTRODUCTION

Ranger Safety Shoe Manufacturing Plant is part of Sri Lanka's largest safety footwear company, operating under its parent organization, Industrial Safety Equipment Co. (Pvt) Ltd (ISEC) a trusted name since 1968.

Established in 2021, the Ranger Plant was launched with a focused approach to serve the industrial and institutional sectors, offering high-quality safety footwear engineered for durability, comfort, and protection. All Ranger products are manufactured at Sri Lanka's largest safety footwear facility, located in Bomuwala, Kalutara, equipped with state-of-the-art machinery and operated under stringent ISO 9001:2015 Quality Management standards.

ISEC's dedicated sales and technical team comprises highly trained professionals who work closely with customers to understand their workplace requirements and deliver optimum performance solutions. With a wide and versatile product portfolio, Ranger Safety Shoes ensure unmatched protection, innovation, and reliability for industrial professionals across multiple sectors.

# RANGER SAFETY FOOTWEAR PLANT ACHIEVES ISO 9001:2015 CERTIFICATION!

We are proud to announce that Ranger Safety Footwear Manufacturing Plant, a division of Industrial Safety Equipment Co. Pvt Ltd (ISEC), has been officially accredited with ISO 9001:2015 Certification — a globally recognized standard for Quality Management Systems (QMS).

This milestone reflects our unwavering commitment to quality, consistency, and customer satisfaction in every pair of safety shoes we produce.

From design to delivery, every process at our state-of-the-art factory in Bomuwala, Kalutara adheres to the highest international standards, ensuring our customers receive durable, safe, and reliable industrial footwear they can trust.

Since our inception in 2021, Ranger has focused on advancing Sri Lanka's safety footwear manufacturing industry — delivering performance-driven footwear engineered for industrial and institutional excellence.

This certification reinforces our promise to:

- Maintain the highest levels of quality and safety in manufacturing
- Continuously improve our processes and systems
- Deliver world-class products that meet and exceed customer expectations
