# AI Design

# Ideas Visualized using Product Design

\*Prompt Used

## Generation 1

### IDEA TO VISUAL

*white oversized dress laid flat or on hanger, clean professional product photography, no model visible*

## Generation 2

### TWEAKING DESIGN

*remove the extra fold from between the dress, keep the display of the dress the same on the hanger, flat lay*

## Generation 3

### AESTHETICS

*change the colour of the dress to a white and light purple gradient dyed effect, keep the display same on the wooden hanger, flat lay*

## Generation 4-5

### SKETCH RATIONALIZATION

*Remove the hanger from the display*

*using the Sketch Generator tool*

# Iterative Design for more Variations

## TOOL USED: Product Design

The screenshot shows the styls.ai Product Design Studio interface. The left sidebar lists various tools: Home, Product Design (selected), Sketch to Render, Sketch Generator, Precise Editing, Virtual Trial, Prints & Seamless Patterns, Background Change, Apply Print, Video Generation, Asset Library, Tech Packs, and AI Buying Platform. The main area is titled "Product Design Studio" and "Craft compelling product visuals with AI." It shows a "Reference Image (recommended)" of a white dress with a light purple gradient. A "Magic Prompt" box contains the text: "change to a darker purple gradient colourway, keeping the display same". The right side shows the original image and a modified version with a darker purple gradient. A message at the top right says "Your remaining credits: 89".

## Generation 7 DEEPER COLOURWAY

*Change the colourway of the dress to a light purple to dark purple gradient, keep the display the same flat lay display*

Created with  styls.ai

# Asset Library

# All Saved and Organized in your Asset Library

The Asset Library interface features a sidebar with a list of features: Home, Product Design, Sketch to Render, Sketch Generator, Precise Editing, Virtual Trial, Prints & Seamless Patterns, Background Change, Apply Print, Video Generation, Asset Library (selected), Tech Packs, and AI Buying Platform. The main area shows a folder named 'Winter Dress Ideas' with a sub-folder 'Lifestyle'. Preview cards include a video thumbnail of a woman walking in a city street, a 'Lifestyle' card, an 'Editorial 2' card, an 'Editorial Shot Final' card, a close-up of a garment, and a patterned garment. A search bar at the top right and an 'Upload Asset' button are also visible.

Trims			
Components and quantities			
Trims			
Item	Description	Placement	Ref Image
Screen Print	Plastisol or water-based screen print featuring Japanese calligraphy characters	Center front chest area	

**Sample Garment Measurements**

Step 1: Select a measurement from the table below

Step 2: Click and drag on the sketch to draw measurement lines

#	Measurement Point	Measurement	Tol
1	Center Back Length From HPS to Hem	42 1/2	
2	Chest Width	20 1/2	
3	Waist Relaxed	17 1/2	
4	Shoulder Width (seam to seam)	16	
5	Across Back	15 1/2	
6	Sleeve Length (from shoulder seam)	24 1/2	
7	Hip Width	21 1/2	
8	Sweat/Hem Opening	22	

← →

Select a measurement from the table to start drawing

The image shows a garment design software interface. On the left, a sidebar lists 11 items: 1. Fabric & Stitch, 2. Garment Details (selected), 3. Garment Features and Details, 4. Artwork and Print Spec, 5. Bill of Materials, 6. Measurement Spec, 7. Sketch - Measurement Mapping, 8. Special Comments, and 11. Download PDF. The main area displays a t-shirt with a purple-to-white gradient. A central graphic featuring stylized Chinese characters is positioned on the chest. Two side pockets are located on the lower left and right sides. Callouts with red dots and lines point to the 'mock neck' at the top, the 'central graphic' on the chest, and the 'pocket 1' on the left side.
