

B O N V O R

Company Profile

A Leading One-Stop Supplier from Fabric to Lingerie and Fashion Women

Main Products:

Lingerie and Fashion Women in Embroidery

1. Company Profile

Bonvor is also a leading garment manufacturing specialist based in Guangdong, China, with a dedicated workforce of over 3,250 professionals. Our core garment processing capabilities are anchored by a specialized factory housing 1,000+ skilled workers, supporting an annual production capacity of 2.5 million garments. This facility works in synergy with our embroidery, dyeing, and seamless knitting units to offer integrated OEM/ODM apparel solutions.

We ensure rigorous quality control throughout the cutting, sewing, and finishing processes, enabling responsive and reliable production for global fashion and lingerie brands. With additional support from strategically located facilities across Asia, we guarantee transparent, traceable, and timely delivery from fabric to finished apparel.

Advantage

Flexible (Lower MOQ)

Innovation (Original design with copyright)

Competitive (fabric to garment integration, super cost-effective)

Efficiency (Digital management of quality and delivery)

Fabric Weaving

- Equipped with state-of-the-art machinery from Germany, Italy, and Japan, the company ensures precision and efficiency throughout production.
- With over 300 acres and an investment exceeding RMB 500 million, the facility supports large-scale, high-quality fabric manufacturing.
- Delivering consistently premium lace fabrics featuring exquisite craftsmanship, lightweight texture, sharp printing, and uniform patterning.

Fabric D&R

- Boasting robust in-house research and development capabilities, with over 3,000 registered design patents and copyrights, introducing over 200 new patented designs annually.
- Recognized as a "Science and Technology Innovation Giant Enterprise".
- Participating regularly in premier global trade shows including Première Vision Paris, Interfilère Paris, and Texworld New York.

Fashion D&R

- Operating a dedicated Design and Research (D&R) Center staffed by over 30 experienced designers. In response to client specifications, we directionally develop product series aligned with current fashion trends, addressing the full spectrum of customer development requirements.
- Committed to delivering rapid and responsive service, ensuring timely and trend-aware support for all design and production needs.

Garment Processing

- Operating a 150,000-square-meter apparel production facility, equipped with advanced intelligent manufacturing systems. Current production assets include 18 computerized cutting tables, 15 automated garment hanging systems, and over 800 sewing units, supported by a workforce of more than 1,000 employees.

- Two dedicated quick-response production lines have been established to accommodate rapid order replenishment, compressing the shortest production cycle to under 7 days.

Supply Chain system

- Delivering comprehensive one-stop OEM and ODM solutions, supporting brands through the entire production process from fabric development to finished garments.
- Partnering with numerous renowned global women's fashion brands, ensuring high-quality manufacturing and collaborative innovation.
