BRANDED MATERIALS PRODUCTION

FEELS RIGHT, NATURALLY

TENCEL™ Derived from sustainable wood sources, harvested from certified and controlled sources using a closed loop production process. Known for natural comfort and environmentally responsible. Deliver quality, performance and versatility. Unique physical properties lead to their high tenacity profile, outstanding moisture management and gentleness to skin.

THE NEW STANDARD IN ECO-RESPONSIBLE VISCOSE

LENZING™ ECOVERO™ branded viscose fibers Derived from certified renewable sustainable wood and pulp sources using an eco-responsible production process by meeting high environmental standards. Up to 50% lower emissions & water impact than generic viscose. Tailor to a sustainable lifestyle, contributing to a cleaner environment.

MADE FOR THE GOOD OF TOMORROW

REPREVE™ The world's number one brand of recycled performance fiber. Made from 100% recycled materials. Can certified and traceable. Foster a sustainable world by diverting plastic bottles. Helps to offset the use of petroleum, emitting fewer greenhouse gases and conserving water and energy in the process.

THE STARTING SIGNAL FOR FUTURE

BIONIC-FINISH® ECO Fluorine-free water repellent textile finishing agents for ultimate performance. Based on proprietary dendrimer technology, comes as a family of unique non-halogenated, APEO-free, fluorine-free formulations suited for different materials and designed for different applications and needs.

REDEFINING COMFORT AND FIT SINCE 1958

LYCRA® Since its invention over sixty years ago, LYCRA® fiber set the standard as the world's best-known spandex fiber brand. Lightweight and nearly invisible, LYCRA® fiber became the active ingredient in clothes, revolutionized the way we wore. Transforms garments into better fitting, durable clothes that move with our bodies, delivering fit, shape and comfort that lasts.
