ALUMINIUM COLLECTION

The aluminum used in our products finds itself to be the ideal material for outdoor furniture as it is sturdy, durable, cost-effective, and recyclable. It also has many design possibilities due to it being easily manipulated into different shapes.

Aluminum has properties that make it not susceptible to UV damage, rain corrosion, or heat and cold absorption, therefore preventing the furniture from being damaged or from becoming too hot or cold to sit on.

Spring/Summer 2024 - 2025

Our Aluminium Collection has the most recent styles that are top sellers in marketplaces all around the world.

WEAVING COLLECTION

The high quality material used in the weaving has been handcrafted by and sourced from farmers in rural provinces within the Mekong Delta.

This allows for the furniture to have a charming look while being breathable and lightweight.

By meeting the 3000 Hours in UV rays testing standard, the furniture is durable in nature and guaranteed to be long lasting.

Our line of weaving furniture consists of the latest designs that are a best seller for markets all over the world.
