ANHO®
For any home, anytime, anywhere

OUR SERVICES

Product Development
Suppliers of different scales are flexible to meet the needs of customers. By making adjustment on the choice of materials and design, costs control is possible to achieve its best result.

Production Supervision
Experienced ANHO staff are capable to recommend the production technology your design is looking for, and to cut your production cost down to - or lower than - your expectations.

Shipping
ANHO warehouse temporary storage services, container loading and shipping arrangement covering most nations.

Packaging Design
Tailor-made packaging design is available on request.possible to achieve its best result.

Inspection
Over 6 major inspections throughout the whole production process. Inspection area include outlook, structure and function of the products.

After-sales Services
Post-production evaluation, complaint follow up services, past order online look up and etc.

Our Suppliers

There are over 300 factories manufacturing for our customers. Production quality and punctuality are guaranteed by the experiences of years of cooperation. Mutual trust and benefit provide grounds for us to negotiate with our suppliers, for example, MOQ and colors of the product.

Abundant suppliers enable us to divide your order into different proportions and assign them to different factories. On-time delivery for orders with big quantity are ensured.

Our Specialization

ANHO products emphasized the needs to balance functionality and design. Simplistic designs are suitable for any home, anytime, anywhere.

Our Customers

Enthusiastic retailer and importers from 70 countries around the world, mainly Europe; from local startups to transnational chain stores.
