# About us

We at Vimla International, create exquisite hand-woven artisanal rugs and carpets. Our rugs are crafted from natural, sustainable fibers such as wool, jute, hemp, cotton, sisal, and silk, and are free from harmful toxins and harsh chemicals.

Our humble beginnings with a single loom in 1989 have grown into a thriving operation with 650 looms located in 50 villages throughout Rajasthan, India. Over 50 percent of our skilled weaver community comprises women, whose contributions are an essential part of our success.

As a Good Weave Certified company, we guarantee that no child labor, forced labor, or bonded labor is used in the production of our rugs.
