HANDMADE RUGS & CARPETS

About us

We at Vimla International, create exquisite hand-woven artisanal rugs and carpets. Our humble beginnings with a single loom in 1987 have grown into a thriving operation with 650 looms located in 50 villages throughout Rajasthan, India. Over 50 percent of our skilled weaver community comprises women, whose contributions are an essential part of our success.

Our rugs are crafted from natural, sustainable fibers such as wool, jute, hemp, cotton, sisal, and silk, and are free from harmful toxins and harsh chemicals. As a Good Weave Certified company, we guarantee that no child labor, forced labor, or bonded labor is used in the production of our rugs.

OUR PRODUCTS

Custom bespoke rugs

All our handmade rugs can be customised to suit requirements of the designer community. We create bespoke rugs starting with a piece from our own collection or even from a customer's design. You can make your choices from:

- Variety of high-quality materials (among wool, cotton, jute, silk, hemp and viscose and many others)
- Endless options of colours
- Knot count
- Pile height
- Dimensions
- Dyeing method
- Weave type

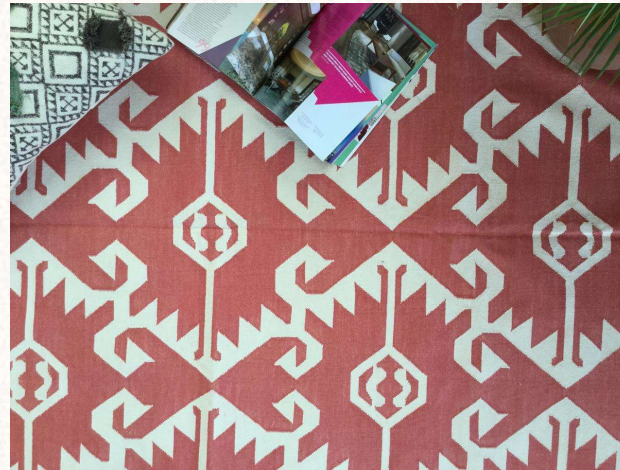

We can produce a sample, so you can check that it meets your exact requirements.
