About Us

Urban Wood Interiors is a Bangalore based Interior Design and Manufacture experts since 2015. We are customer-centric designers with in-house production units and modern technologies and aspire to deliver exceptional service to our clients. With our team of design specialists, we started with residential projects and swiftly extended into commercial projects, office spaces, modular units, and so on. We believe in crafting contemporary and refined designs that are unique to each customer and their lifestyle. Our professionals give a touch of elegance to your space to make it more inviting and to enhance the house's beauty. All of our products are produced from sustainable materials in order to create a happier and healthier life.

“
The key to great design is capturing the spirit of the client and the essence of the space”

Take your pick from these trending designs and start your bedroom renovation journey today with Urbanwood.

Finally, consider adding personal touches such as artwork or photographs to make the space feel like your own.

BEDROOM DESIGN

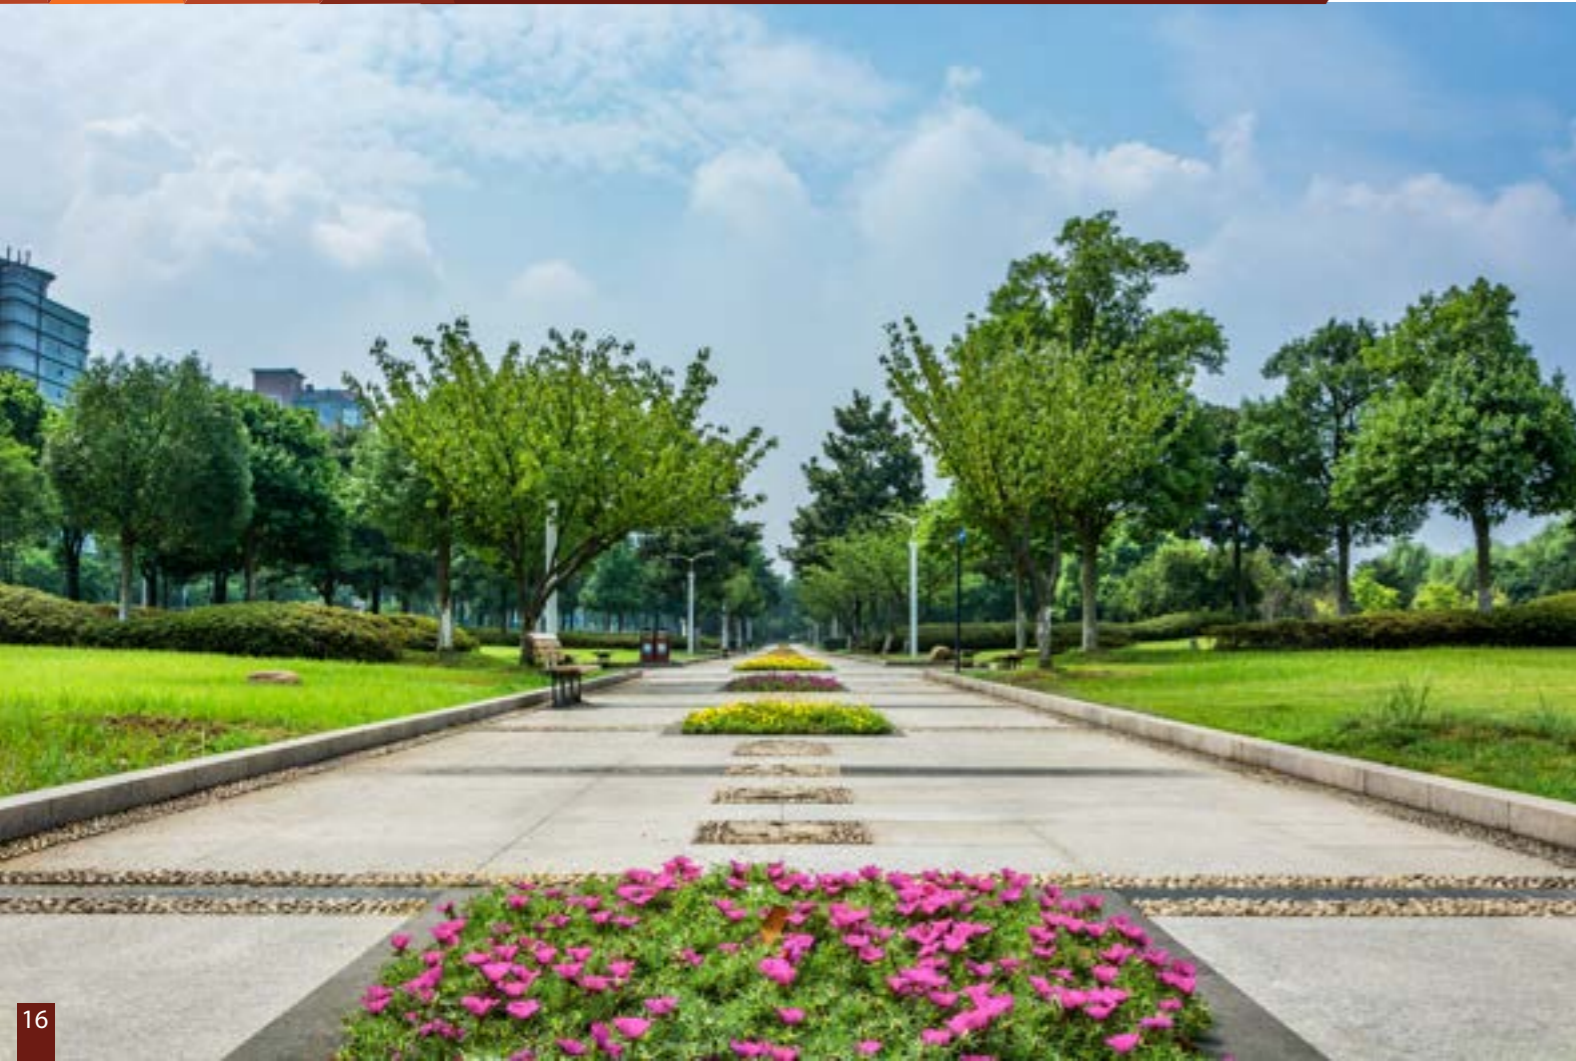

A bedroom should be a peaceful and restful retreat, designed to promote relaxation and good sleep. The color scheme should be calming and soothing, with soft, neutral tones that create a sense of tranquility. The furniture should be comfortable and functional, with a bed as the focal point of the room.

Landscape design focuses on both the integrated master landscape planning of a property and the specific garden design of landscape elements and plants within it. The practical, aesthetic, horticultural, and environmental sustainability are also components of landscape design, which is often divided into hardscape design and softscape design. Landscape designers often collaborate with related disciplines such as architecture, civil engineering, surveying, landscape contracting, and artisan specialties

SPACE SAVING FURNITURE

Space-saving furniture is designed to be compact and take up as little space as possible. It is well suited for small apartments, homes and offices where space is at a premium. This kind of furniture which includes murphy beds, fold-down tables and convertible sofas can be easily stowed away when not in use and can help maximize the use of the available space in a room. Ready to get creative with your space?

FURNITURE DESIGN

Build your home interiors in an elegant way with our unique and best furniture designs from Urbanwood. Our wide range of furniture designs online are equipped with different options that can suit modern home décor, traditional interiors, contemporary aesthetics, and majestic ambiance as well.
