CHRISTMAS COLLECTIONS 2021

With our huge, joyous, new 2021 Christmas collections we look forward with hope to a better and more cheerful year. This booklet offers a quick introduction to what I and my team have managed to create, despite the lockdowns and curbs on travel to suppliers. I am more than pleased with the result and I hope you will be too.

15. Kingdom of the Bee	27. Candles
16. Nordic Noel	28. London Christmas
18. Flower Fairies	29. Christmas Flowers
20. Fairy Tales	30. Halloween

CHRISTMAS ARTS & CRAFTS

Inspired by Victorian designers like William Morris, we've combined beautiful fabric patterns and prints in this glorious 'Christmas Arts & Crafts' collection - a glamorous patchworking of decorations for the Christmas tree and other festive items around the home. Colours: blue, teal, faded red, green with gold.

NOBLE CREATURES

We've imagined Christmas in the depths of a tropical jungle and the creatures who live there – lions, tigers, elephants, giraffes. They're rendered in gold and dressed up specially to celebrate the festive season. Colourways; green, gold, hints of black glittered tropical foliage sets the scene.

WINTER DREAMS

Our frosty white collection for this year transports you to a Christmas garden where mice, hares, deer & squirrels play amid the snow. The mauve and green dresses of crocus fairies add a bright contrasting note to this winter wonderland...

STARLIGHT

This is 'Starlight'; a fantasy featuring angels, stars, moons, whimsical forest animals. Classic Christmas colours; gold, cream with exciting new midnight blue accents. Lovely tree decorations compliment larger pieces for home decoration and gifts.

BOTANICAL

This is 'Botanical – paying homage to the great plant collectors and botanists of a bygone era, and the style in which they revealed their discoveries to the world; coloured engraved book illustrations of fruit, toadstools, birds, insects & mistletoe. Antique colours: red, plum, green with touches of gold leaf.

NORDIC NOEL

'Nordic Noel' is faithful to the popular Scandinavian Christmas tradition. It features stylised figures and a simple colour palette of red and white – offset with a hint of sky blue. We always combine it with gingerbread. This year's special twist: lace, which appears as piped icing on gingerbread and in the dresses of treetop angels.

FLOWER FAIRIES

If you go down to the woods today, you may just catch a glimpse of our Flower Fairies and their favourite flowers. They live alongside the other woodland denizens - badgers, squirrels, hedgehogs, rabbits and birds. Enhanced with glittering leaves, berries, cones, and acorns.

FAIRY TALES

We've brought the pages from our favourite children's books and nursery rhymes to life in our 'Fairy tales collection' From Peter Pan to Aladdin and Cinderella to Snow white, these beautifully crafted storybook characters combine to create a wonderful collection of decorations to cherish each year.

KINGDOM OF THE BEE

Our own tribute to the well-loved, useful, tireless bee which is now an international icon. Our bee collection of gem-like decorations and giftable accessories has a rich, sophisticated colour palette of ruby red, black and gold. You won't find anything like it in the whole of Europe.

ATLANTIS

We've taken one of our collections under the sea for the past 2 years, with great success. This year we're going even deeper with 'Atlantis'. It's the kingdom of Neptune with sea creatures, mermaids, seahorses. Colours: richer 'deep-sea' 'peacock' colours - azure, shimmering green, purple, glittering gold.

SLEEPING BEAUTY

Tchaikovsky's ballet inspired this magical collection. It's romantic and delicate with pastel colourways: pink, mauve, green, with touches of gold. Our ballerinas pirouette elegantly through the roses.

CRAFT CORNER

Adults and children alike will fall in love with our latest collection of charmingly comic felt characters to display around the home or hang on a Christmas tree. Made with traditional needle felting technique you might say this is a truly heart-felt Christmas collection!

CHRISTMAS COUNTRY DAYS

The American country folk art tradition is still very much alive and well and continuing to inspire designers, including ourselves. Materials are typically natural: painted wood, fabric and felt in muted tones russet, olive green, steel-blue. We've followed the country style in a retelling of the traditional song, The 12 Days of Christmas.

CRACKERS

A recent and successful addition to the Gisela Graham range; festive crackers in our own beautiful designs to compliment collections. All environmentally friendly, in recyclable boxes and no plastic contents.

CANDLES

GLASS

Here at Gisela Graham we are famous for our glass ball designs and with over 200 hand-decorated patterns to match our collections, we also introduce new and original designs each year. The increasing popularity of moulded, hand-decorated glass shapes means something for every occasion, from champagne and caviar to the infamous festive sprout!

CHRISTMAS FLOWERS

LONDON CHRISTMAS

From grand palaces to cranberry topped pork pies, our 'London Christmas' collection is an ever-popular range featuring glass shapes, wooden figures, novelty decorations and advent calendars highlighting the very best of British!

FOSSIL FRIENDS

Dinosaurs are very much alive in our colourful and jolly 'Fossil Friends' collection! Featuring Santa, reindeers, tinsel wreaths. Plus super stocking fillers like pens, keyrings and wind-up toys. A collection that is bound to be a hit for families with children of all ages.

HALLOWEEN

Halloween increases in popularity each year, so we've expanded our range to meet the demand! We specialise in a range of spooky decorations from pumpkin candle holders, cobwebs, sequinned skulls and party dress headbands and fun felt characters.

MAKING HOMES BEAUTIFUL SINCE 1983

From small beginnings Gisela Graham has built up one of Europe's leading giftware design companies. Having made her name crafting beautiful decorations for Christmas, Gisela turned her attention to bring German Easter decorations to the UK. Following on from her success within these seasons, she turned her creative flair to designing useful, pretty things for the home and garden.

Gisela was born in Germany and educated at Goettingen and Berlin Universities. Gisela founded her business more than 35 years ago with a borrowed £27, starting her business at the kitchen table when her children were small. She recalls ferrying components and paint to outworkers around London, in a 2CV with a child in the back, with Terence Conran being among her first customers.

Gisela is personally in charge of a talented in-house team of designers at the converted stable-yard that doubles up as her London office and spectacular showroom. She's involved in the design and selection of every one of 4,500 products in her range and sells to shops worldwide.
