GIFT COLLECTIONS 2021

Although our company is best known for its Christmas designs, we always find time to develop new and interesting gift ideas to bring pleasure all the year round.

In this lookbook we introduce some of our latest ideas for 2021 including a 'Lost Garden' for Spring, a new 'Relaxed Glamour' collection, further extensions to our fast-moving Pot collection (in sympathy with the home-bound) and we've added more laid-back stylishness to our Danish chic ranges. All positively looking forward to a Spring 2021 emergence from gloom.

| 14. Modernist | 25. Garden Study |

RELAXED GLAMOUR

Flowers, faux furs, ferns, birds, butterflies, ballerinas: Gisela Graham has put together a glamorous interior melange in which anything goes – in an improbably harmonious way. Colour tendency: blush pinks and greys.

WILDFLOWERS

A childhood spent in the north German countryside has left in Gisela Graham a lifelong passion for wild flowers. Her new Wildflowers collection is the next best thing to the real thing.

POTS

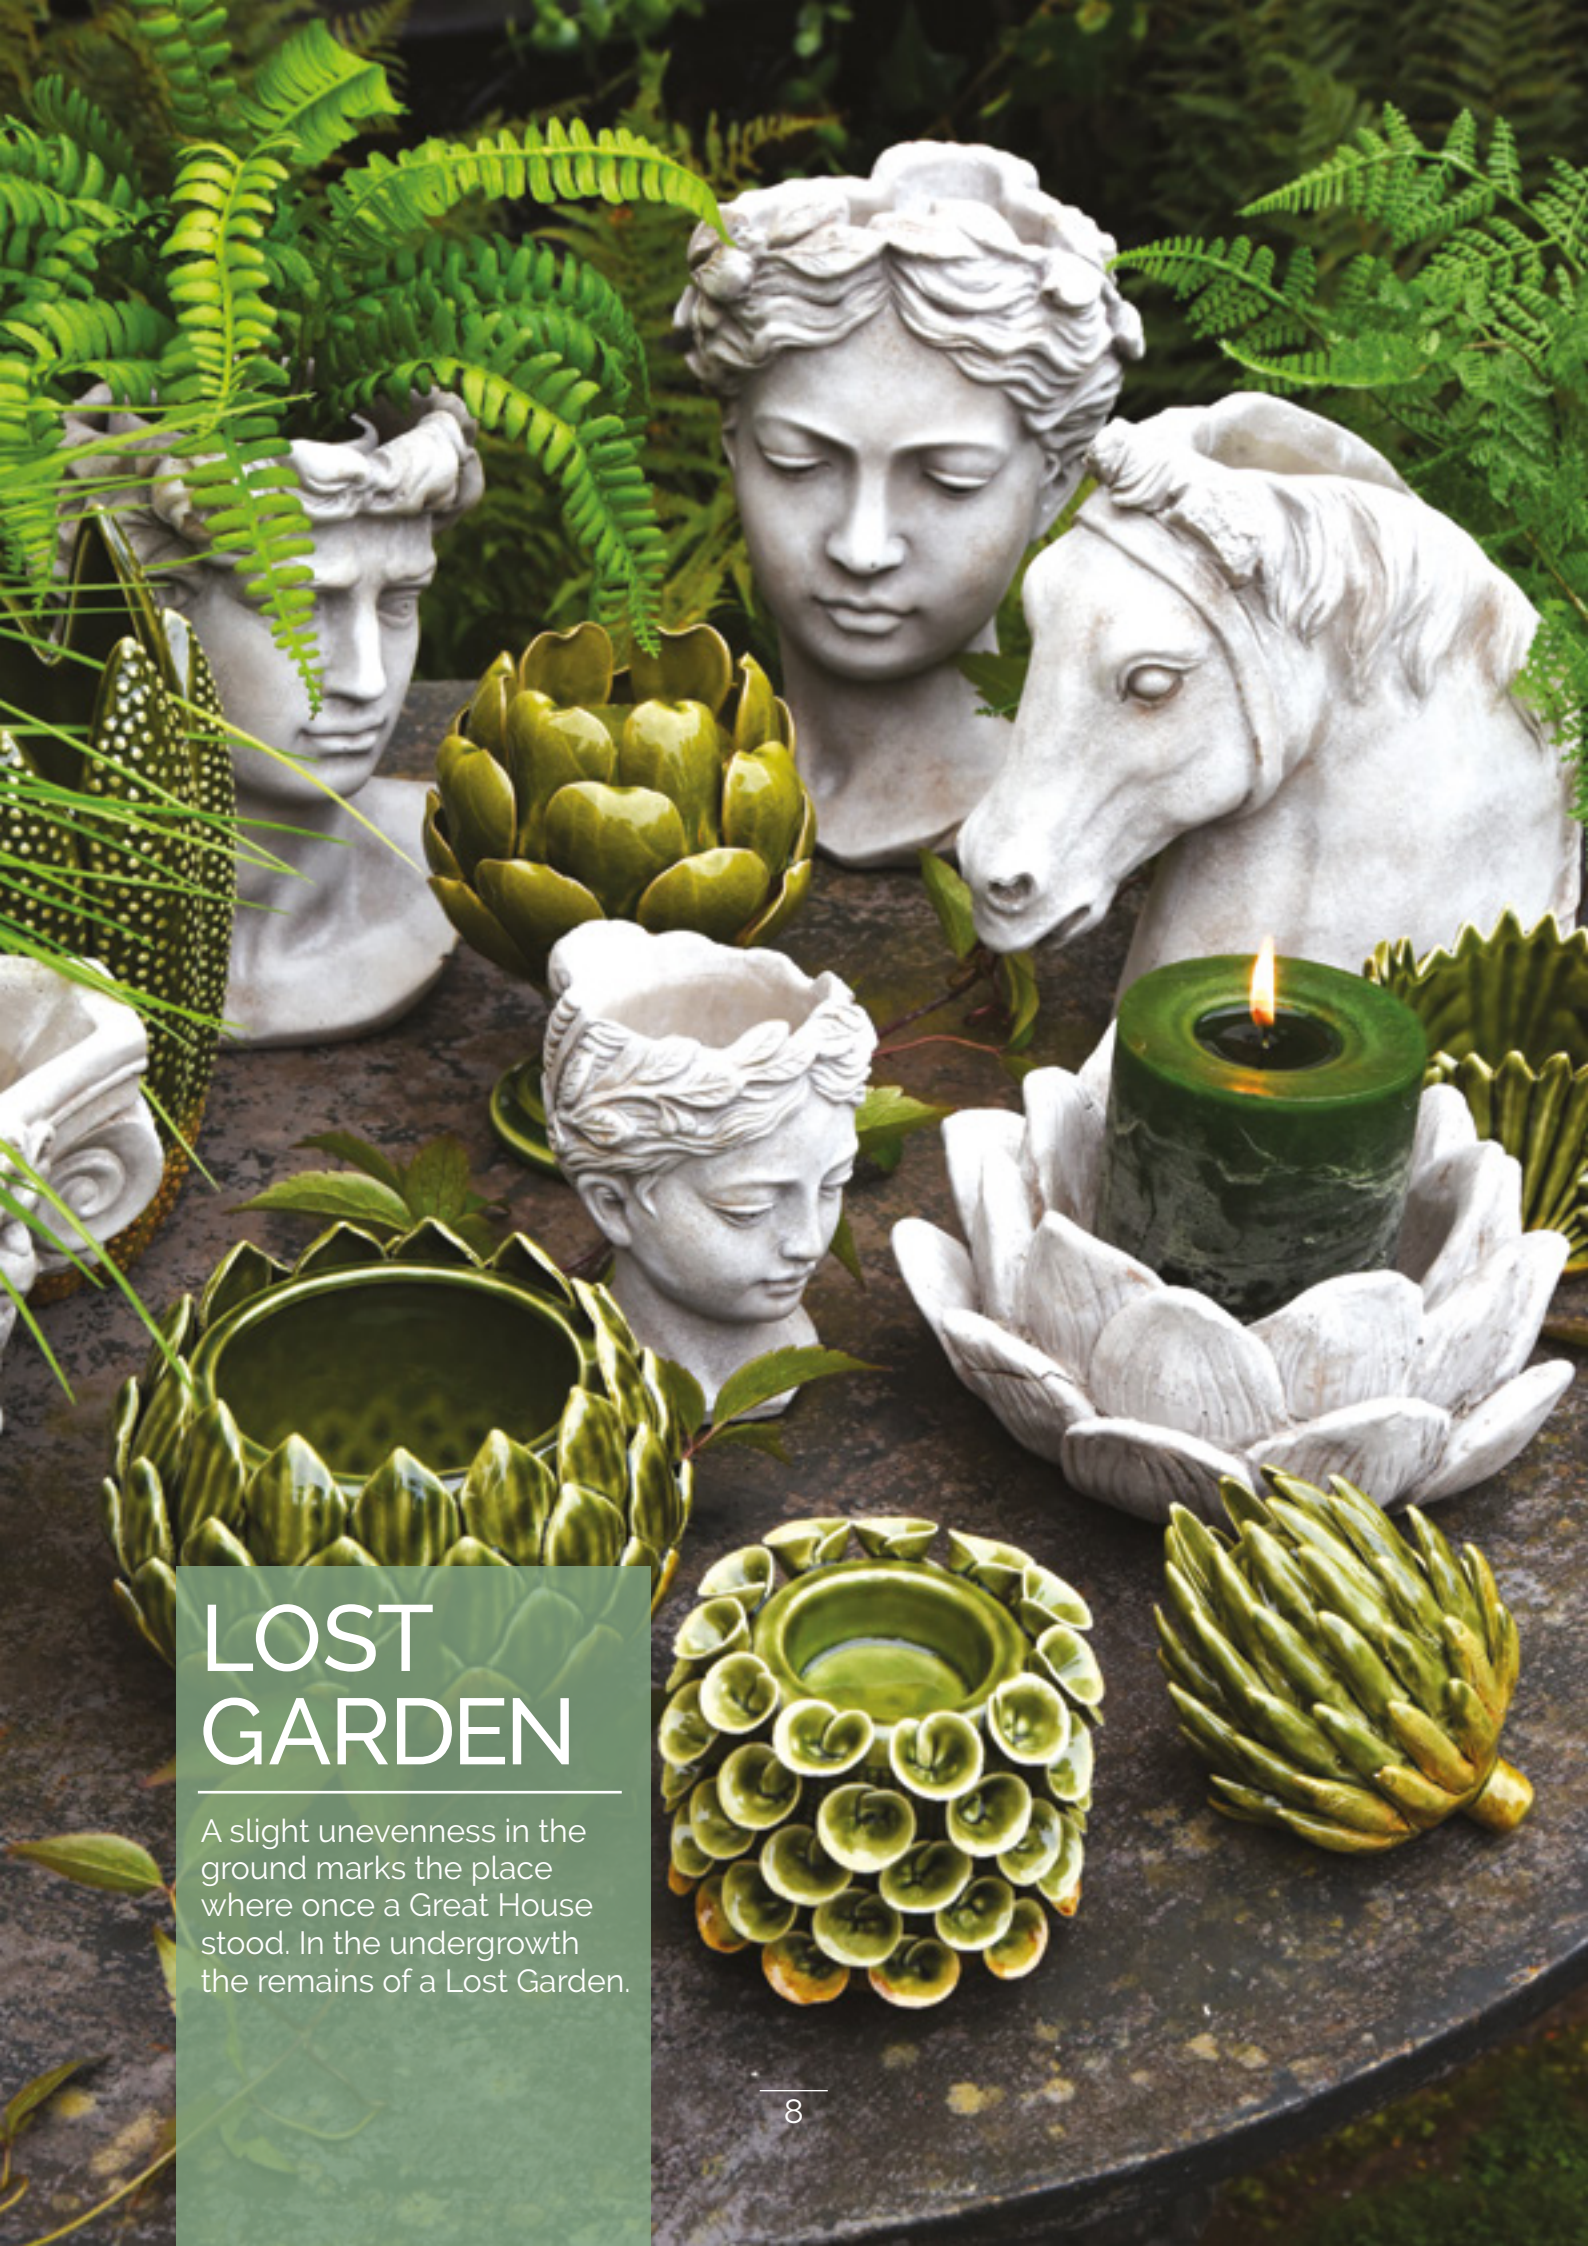

TWO TONE

Grey and white: a combination made for contrast, to set off stabs of colour, like fierce greens or reds.

CITRONELLA

Think lazy garden evenings with friends and a glass of wine, and the sweet scent of summer: Citronella. The one we love, and the one that mozzies and midges hate! Citronella candles in handsome pots for the garden.

LOST GARDEN

A slight unevenness in the ground marks the place where once a Great House stood. In the undergrowth the remains of a Lost Garden.

WREATHS

Who said wreaths are just for Christmas? Gisela Graham's Year-Round Wreaths feature regularly in interior magazines. And our plaited vine wreaths provide the perfect base for interchangeable foliage and decorations to match the seasons.

FLORA & FAUNA

The inspiration is high Summer, when the sun's warmth opens flowers and welcomes butterflies and dragonflies.

SHORELINE

The sea that surrounds our islands is an endless source of inspiration. In the latest version of her long-running 'Shoreline' collection, Gisela goes to the water's edge and picks up periwinkles, ammonites, starfish, and cowries!

MODERNIST

This collection finds Gisela Graham in a mid-century mood. A bright, eclectic mix of light wood, metal, and fabric. Accessorised (authentically!) with ceramics that make a playful nod to the Expressionist art movement.

COASTERS

Is there a finer, more fun collection of coasters than Gisela Graham's? They're almost too good to spill on.

MUGS

Mugs extraordinaire! Laid-back, off-beat designs - with many newcomers to the collection. From ditsy florals to bright abstract paint work, Gisela Graham takes account of everyone's cup of tea.

DOOR KNOBS

With luxe-cycling on the rise, our statement knobs come in a range of mixed metallics, sizes, stones and finishes.

THROWS

VASES

Our carefully curated new range of glass vases are the very thing you didn't know your shop was missing: a great variety of on-trend designs, shapes and colours.

EMPORIUM

Celestial and Jewel tones are internationally hot right now - and it's a trend we love. It's inspired us to put together a stylish collection of lavish 'pick-up' gifts and opulent home accessories: sure to be a winner come Christmas morning!

CANDLES

Every scent has been personally selected by a very discerning nose. Oh, and her candles come in the prettiest boxes, designed by Gisela Graham Ltd, the perfect gift for a friend. Or just for oneself to lighten a dull day.

FRAMEWORK

It's never been easier to capture precious memories, but so often the images never leave the camera roll. With our new Framework collection, we're aiming to set those special moments free, to be elegantly displayed as constant reminders all-round the house.

GARDEN STUDY

Nature in all her myriad varieties; leaves, birds, butterflies. A world of beauty right under our eyes that we're too often, too busy to stop and admire.

MAKING HOMES BEAUTIFUL SINCE 1983

From small beginnings Gisela Graham has built up one of Europe's leading giftware design companies. Having made her name crafting beautiful decorations for Christmas, Gisela turned her attention to bring German Easter decorations to the UK. Following on from her success within these seasons, she turned her creative flair to designing useful, pretty things for the home and garden.

Gisela was born in Germany and educated at Goettingen and Berlin Universities. Gisela founded her business more than 35 years ago with a borrowed £27, starting her business at the kitchen table when her children were small. She recalls ferrying components and paint to outworkers around London, in a 2CV with a child in the back, with Terence Conran being among her first customers.

Gisela is personally in charge of a talented in-house team of designers at the converted stable-yard that doubles up as her London office and spectacular showroom. She's involved in the design and selection of every one of 4,500 products in her range and sells to shops worldwide.
