

SCUK

SOLID COLOGNE UK™

ABOUT SCUK

Solid Cologne UK, launched in 2016. SCUK is a highly concentrated wax based cologne for men. In contrast to the traditional liquid bottle cologne we have introduced natural and skin friendly cologne which is applied directly on to skin.

Our colognes are long-lasting, strong and masculine. The liquid cologne/aftershave are known to be very strong which can cause migraines and can be a complete turn off for some, whilst in comparison to our solid colognes they are not too overpowering and are identified within close proximity.

Our range of colognes are compact; therefore, the fragrances are long lasting, the smell lingers on average 3-5 hours after application.

The product comes in a sturdy (silver, black and white) 18ml sliding lid aluminium tins. The cool packaging boosts the novelty of the product, also it is plastic free and eco-friendly.

Our pocket size cologne is very convenient and easier to travel with as they don't cause any leakage or breakage. Whether you are flying out on holiday, going to the gym or out on a date night you can conveniently carry your tin in a man bag or even in your pocket.

SCUK is handmade in London using the highest quality of natural ingredients including beeswax, shea butter & jojoba oil. The fragrance is made using essential and fragrance oils. All ingredients are sourced in the UK. The product contains no alcohol or any harmful chemicals, therefore reducing the chances of skin irritation. Our product can also be used for moisturizing your skin as it contains natural ingredients. The application is easy, simply scrape off or rub small amount of cologne with your index finger and apply directly into pulse points.

KEY ADVANTAGES OF USING SCUK

01

LONG LASTING AND EASY TO APPLY

Our wax based colognes are long lasting, on average they will last up to 4 hours on the skin. Application is fast and easy, simply rub or scrap and apply directly on to pulse points.

02

MADE USING NATURAL INGREDIENTS

Our colognes are made using the highest quality of natural ingredients including beeswax, shea butter & jojoba oil. which support and protect the skin.

03

TRAVEL FRIENDLY

Small, compact and pocket size tins making it easier to travel with. Whether you are flying out, going to the gym or for a night out, solid cologne is perfect to travel with.
