Innovative Designs

Every Nephele leather bags and accessory is carefully handmade by a team of talented artisan's with over 18 years of experience. With a desire to move away from the fast fashion that has dominated for so long, our aim is to create sustainable pieces that are made to last.

Each bag is made from beautiful pieces of leather, offcuts destined for landfill. The aim is to use the every last piece of leather, which inspired the accessory range to compliment the Nephele bags.

By repurposing beautiful pieces of leather, each bag and accessory is unique; every colour combination a complete one off.

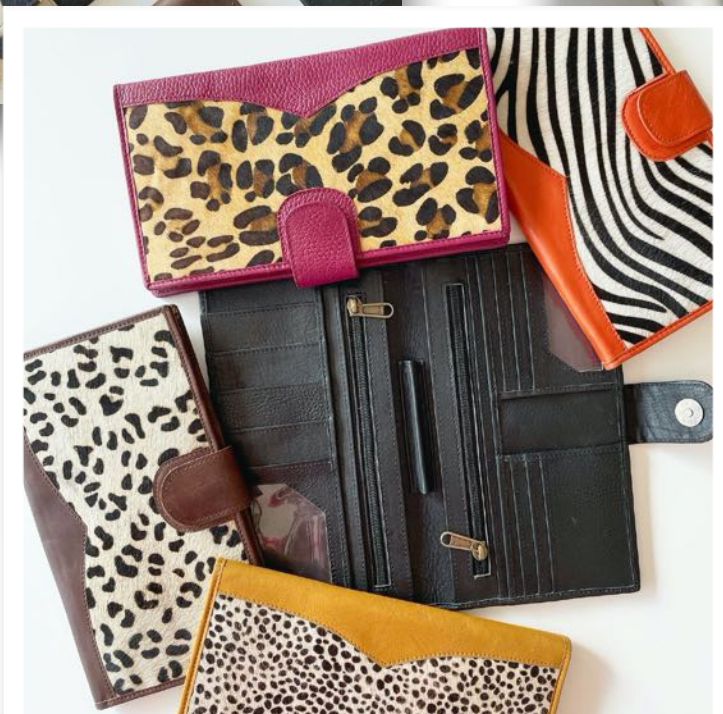

Partnering with a fair trade company in India, we help support over 80 families whilst reducing waste through the resourceful method of production to create beautiful, awe-inspiring pieces in a more sustainable way.
