ECO FRIENDLY AND EARTHEN WALL ART

Our natural ecofriendly and earthen wall artworks would create the right atmosphere for your creative spaces and at the same time make them cozy, they would truly nurture the desire to be closer to nature . It is a trend that can no longer be ignored i.e the addition of natural materials , since these materials provide peace , warmth and character .

The raw material used to make this product is totally eco friendly, sustainable and environmentally responsible as it uses just 10% stone in comparison to the normal usage .

Made from natural stones like slate and sandstones , these pieces of wall artworks are handcrafted by our teams of skilled craftsmen .Mainly it can be termed as an amalgamation of ecofriendly stone with authentic hand painted experience .

Sliced natural stone is different as it allows you to create thinner products that don't lose their strength . It's a perfect material to create elegant pieces .USP of this product is it's functionality and easy to handle approach .
