“My work is empowering people to know that it’s not always going to be a dark place to be. We all have these strengths – we just have to keep our eyes open.”

WE WILL MEET AGAIN

I AM ENOUGH

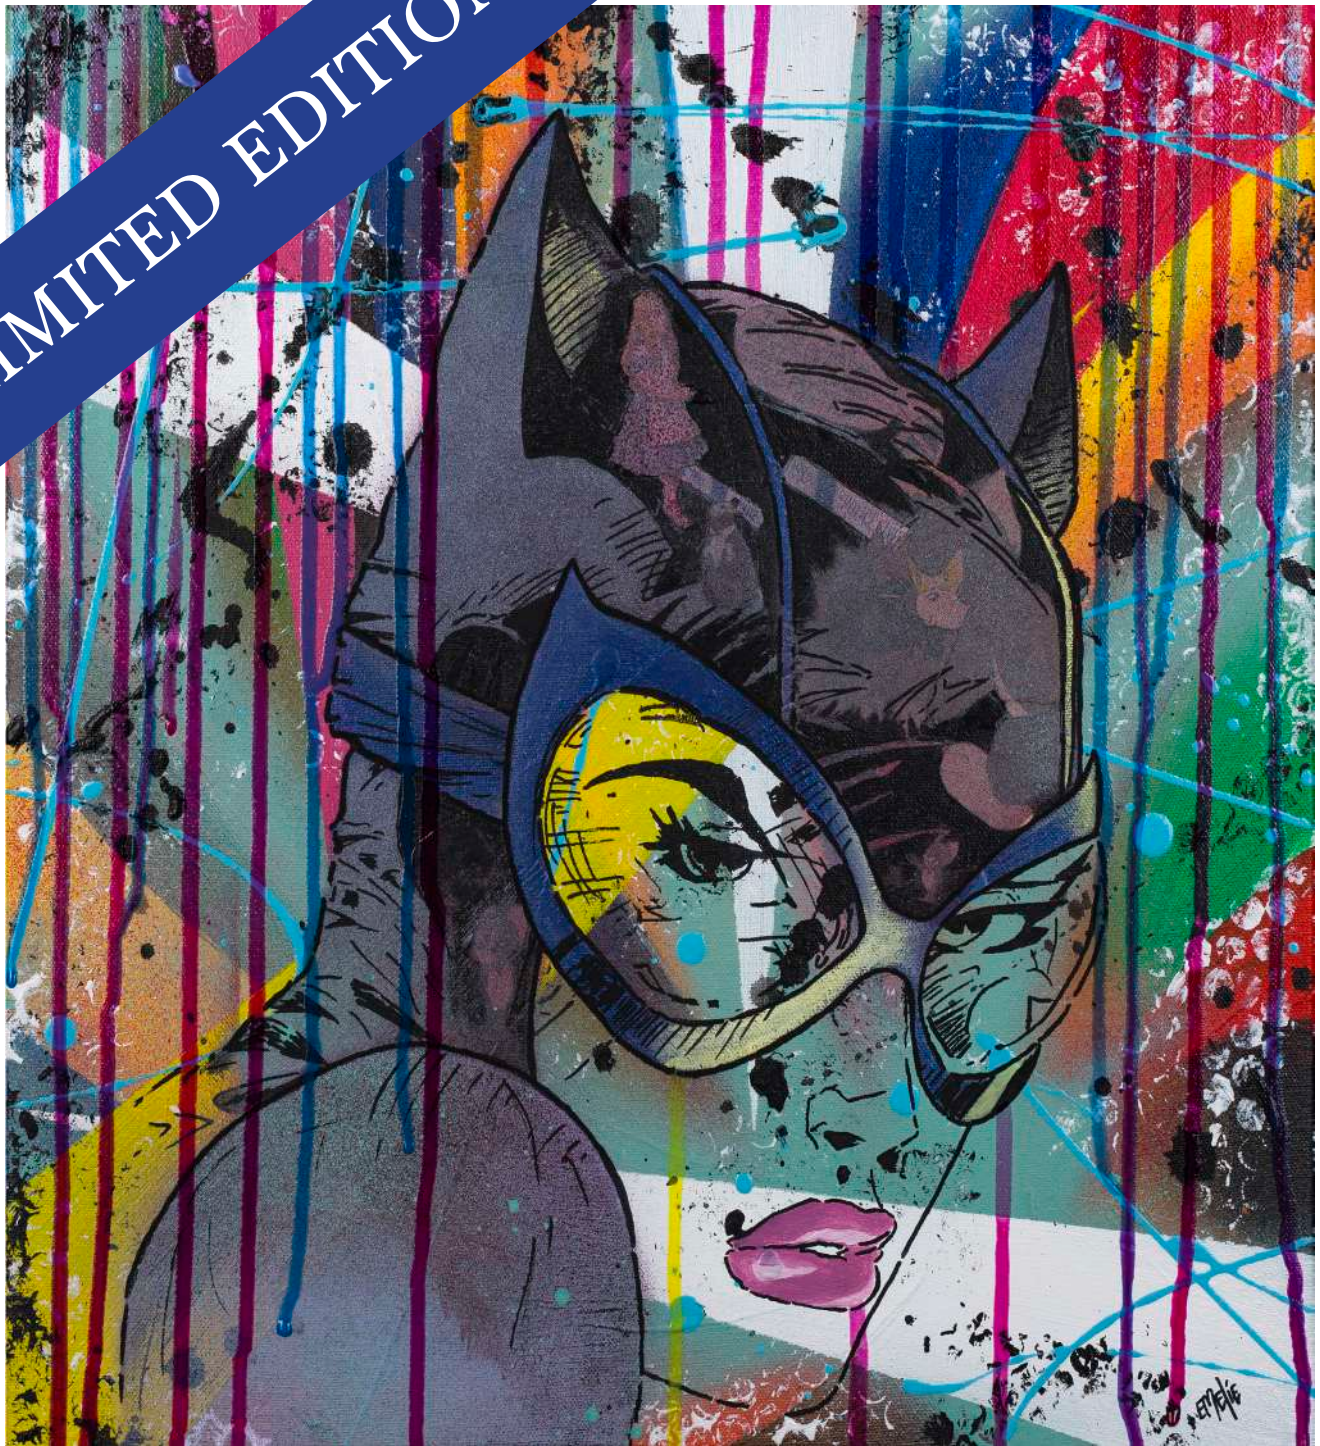

LIMITED EDITION

I AM FEARLESS

“A confident subject, yet with a bold vulnerability and distinctive unravelling persona. I felt myself identifying with the subject immensely; she gave me strength and confidence like no other artwork has ever been capable of giving. Like nothing else has been capable of giving. A bold statement, but one that makes me proud to admit as the creator and the beholder.”

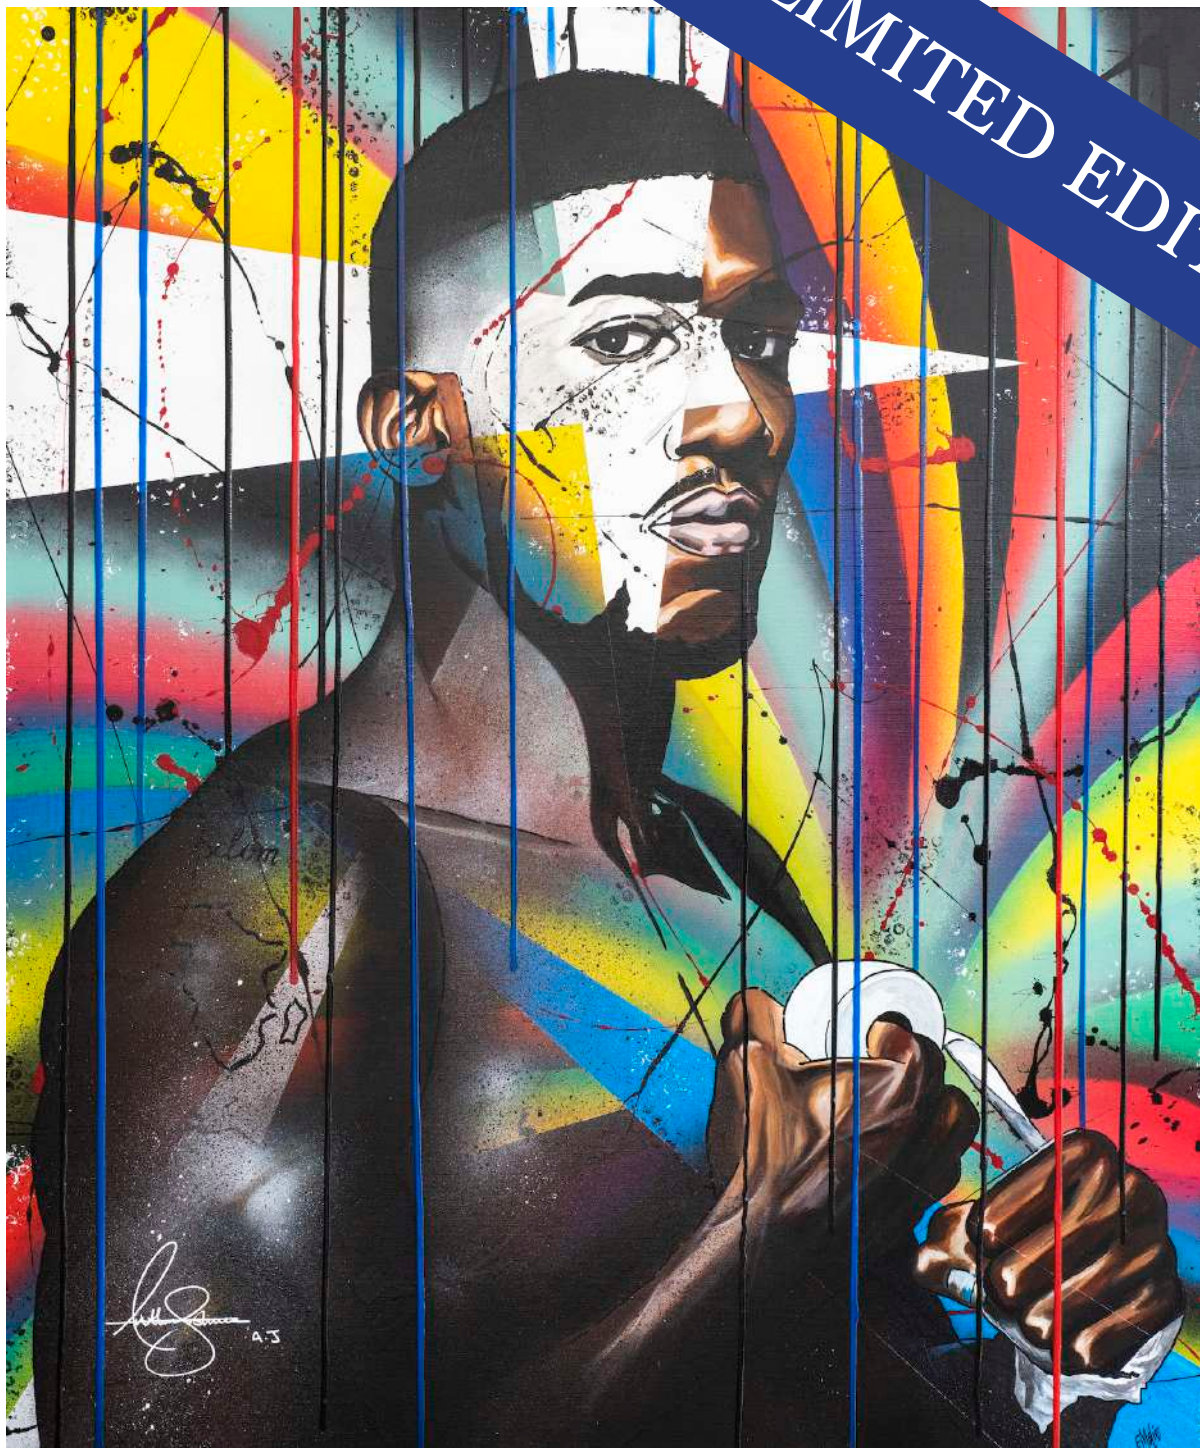

LIMITED EDITION

I AM FIERCE

Inspired by the ever-growing powers of the female leads in Marvel and DC Movies as-well-as in real life, this original piece displays how women can be both fierce and broken, strong and delicate all at once.

Feel empowered by her expression, joyful at her colours and embrace being your own superhero!

I AM RESILIENT

No matter what your fight, no matter what you are a champion of, we can all stumble. It's that free-fall that encourages how our next Chapter will begin.'

My works of Art take on a disposition of their own, whilst building upon the identity of the person I am painting; stripping them down from their outer mask to their higher self, where there's a deep, raw soul consciousness. Their inspiration, their drive and insight. Seemingly endless layers, experiences, beliefs, congregating to create one personality.

LIMITED EDITION

I AM STRONG

“Wonder Woman is empowered, strong, fierce yet delicate, broken and overwhelmed. She provided a perfect subject to base this portrait on”.

Emelie used collage to signify her thoughts and dreams in this piece, but didn't take this method any further than the second in the Collection, 'I am Fierce', making these initial two paintings the rarest in the Collection so far.

LIMITED EDITION

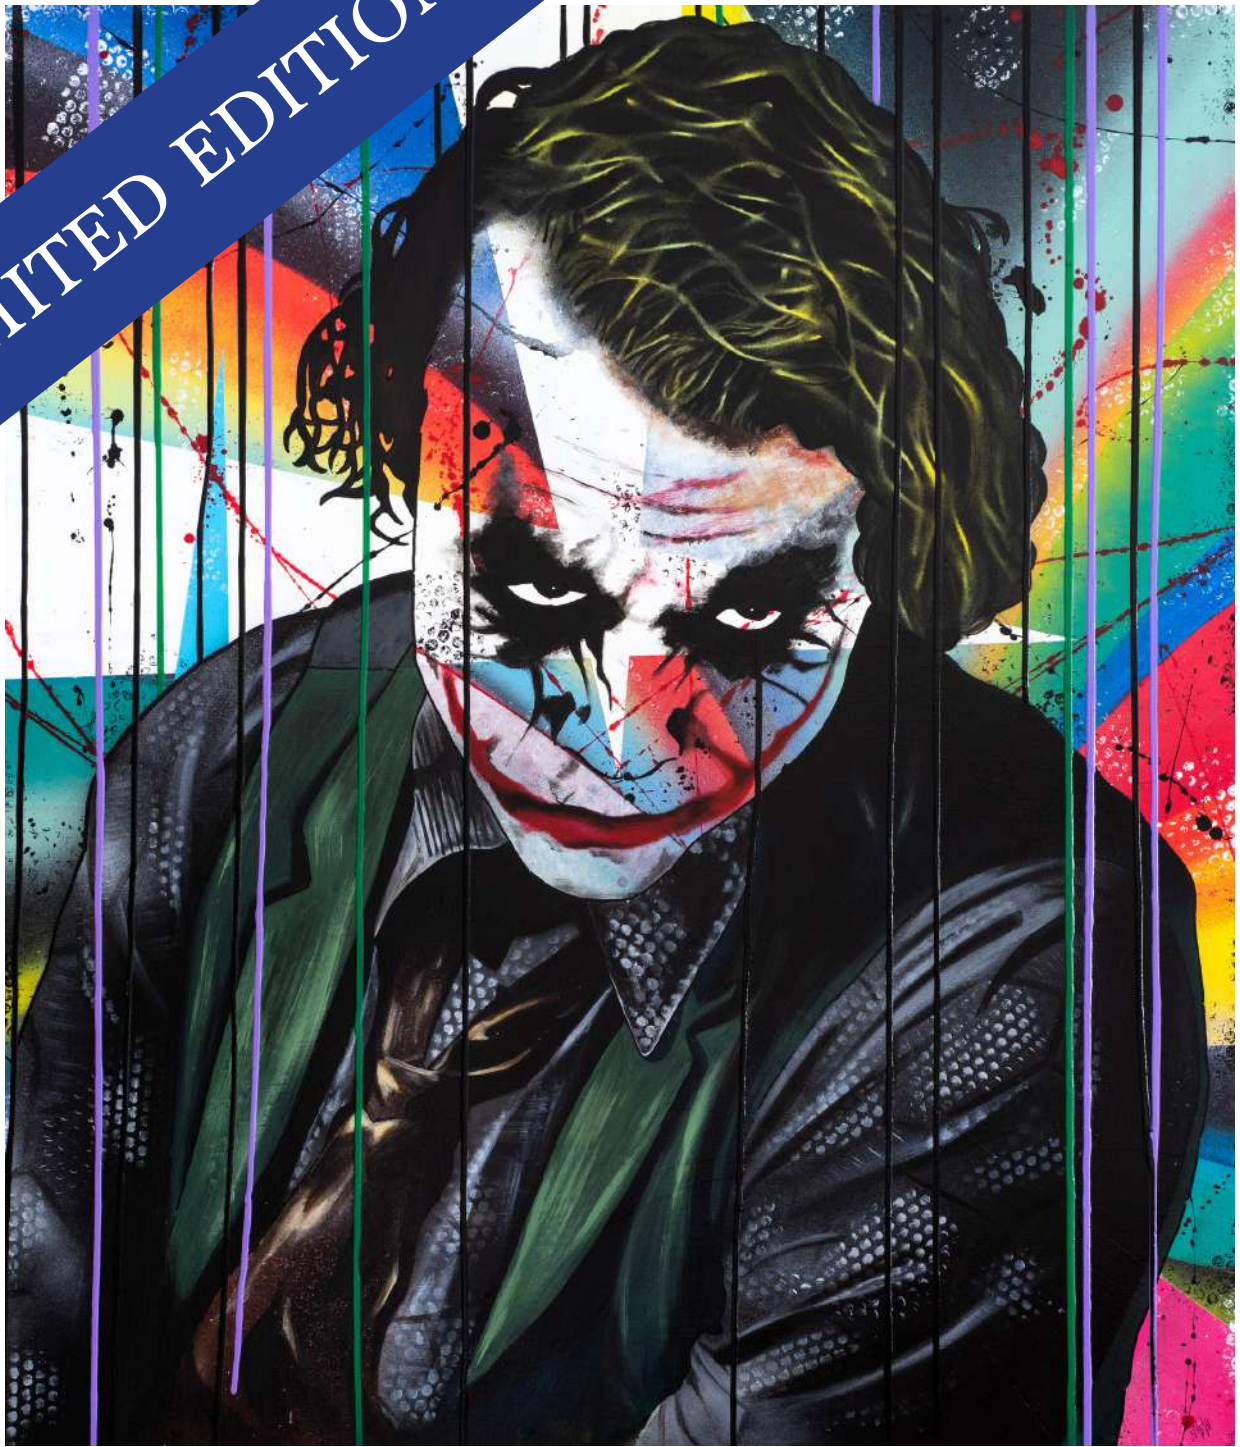

I AM SELFLESS

“Despite the weight of life, the world remains a beautiful, positive and inspiring place, whereby we should all be at peace with ourselves and bring warmth and love to those around us. We simply need to keep our eyes and hearts open to be able to see it”

‘I am Selfless’ delves into the reality of being more than one person; juggling various relationships, pressures, responsibilities and emotions.

LIMITED EDITION

I AM UNSTOPPABLE

The character of The Joker, by which the painting is inspired by, encompassed Emelie in such a powerful way that the painting itself took on a somewhat dark persona, taking Emelie with it.

A pinnacle piece for a Collector from Emelie's increasingly sought after Collection.

LIMITED EDITION

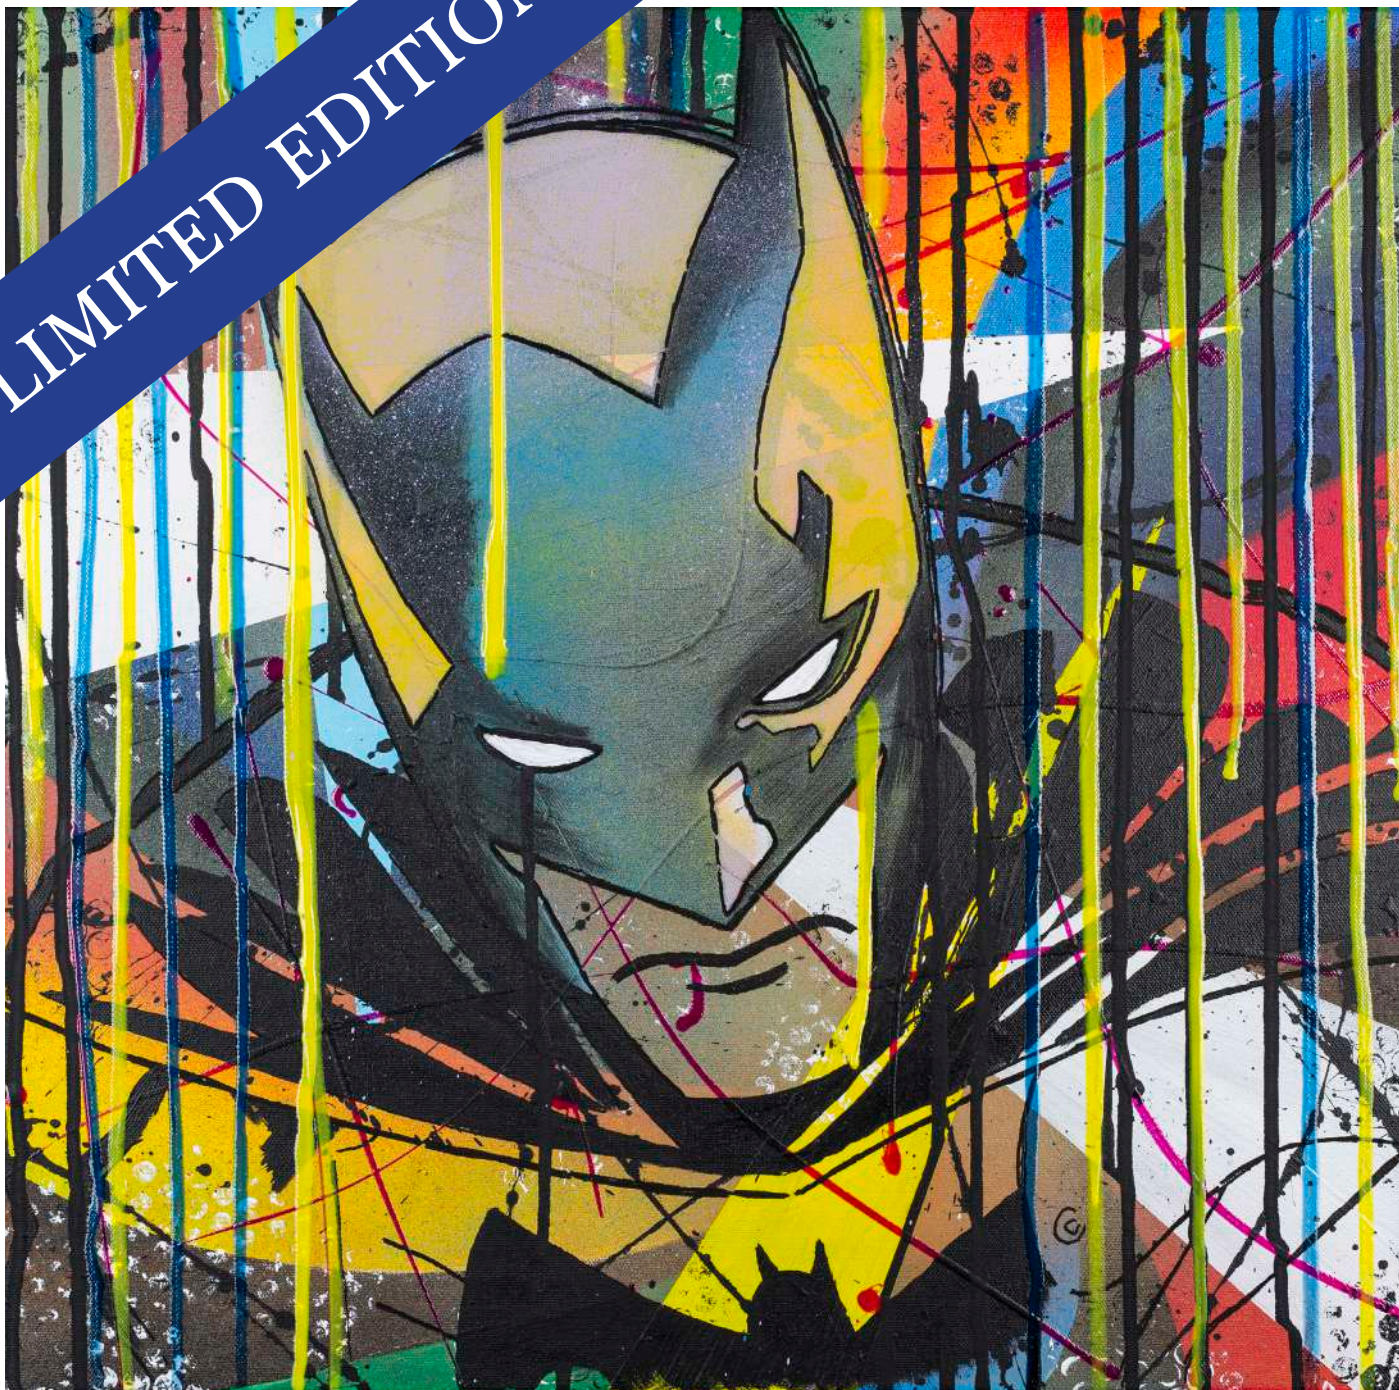

I AM COMMITTED

Committed to his cause, Po reminds us that despite not having a 'natural' strength or skill, we can keep working hard to achieve our goals and one day, with commitment and drive, we'll achieve our greatness.

Inspired by 'Kung Fu Panda's' Po, this vibrant, energy-giving painting brings light and joy to your home.

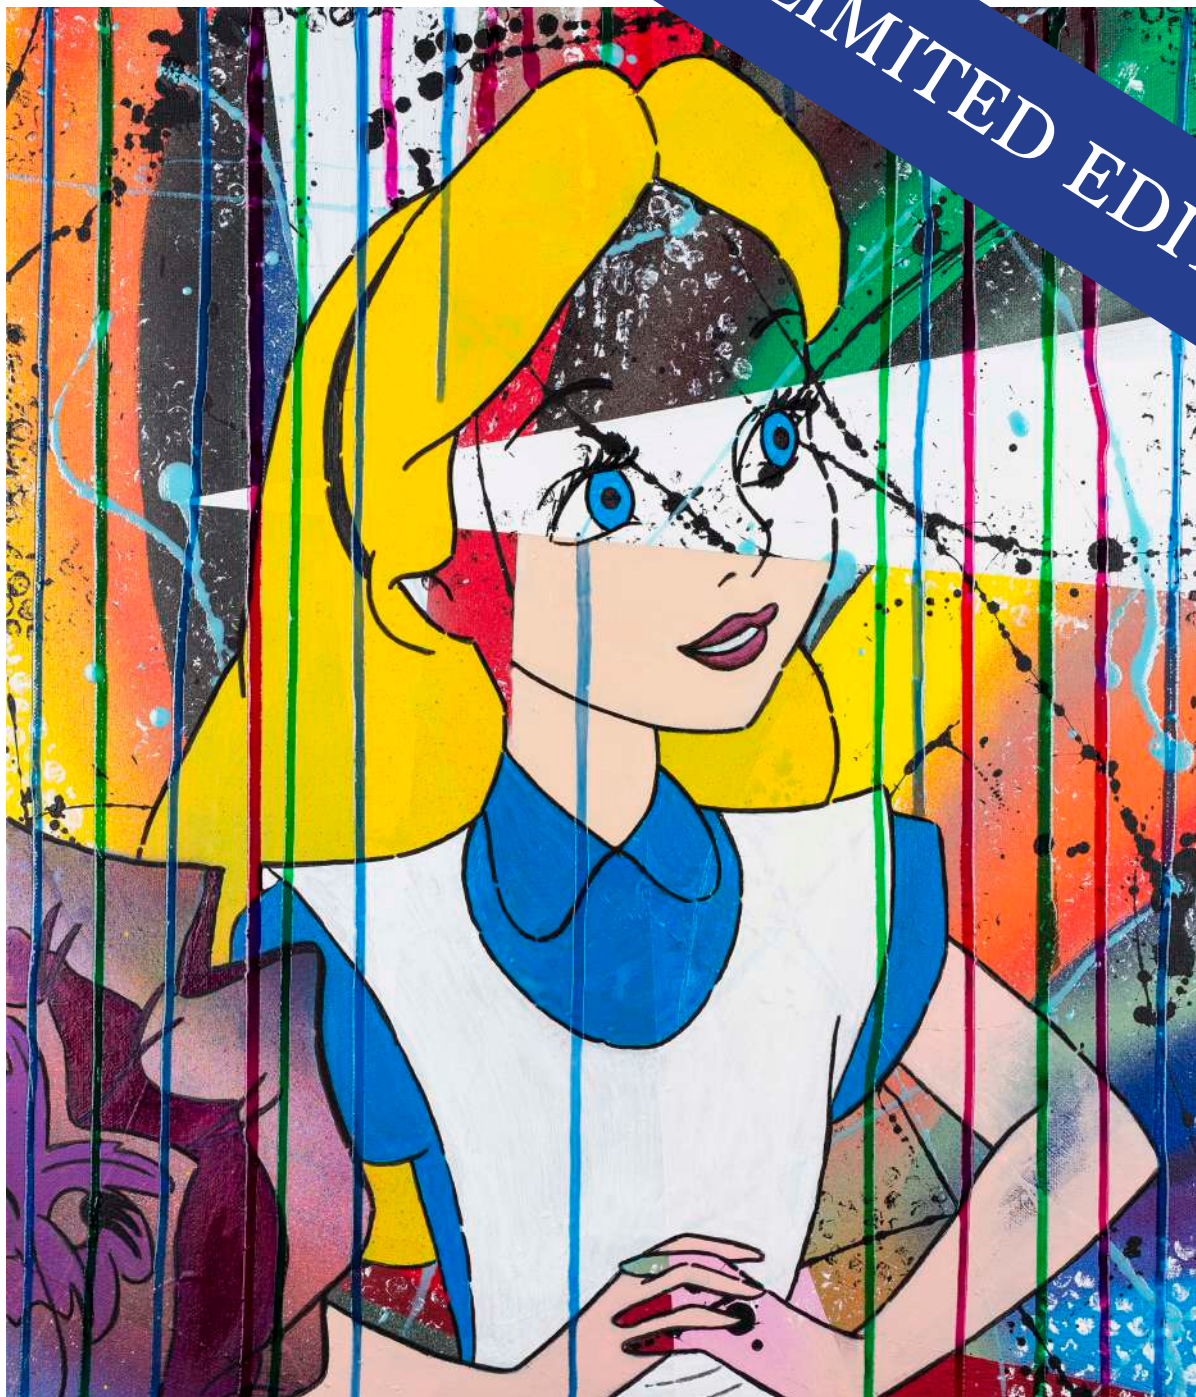

LIMITED EDITION

I AM VENGEANCE

Confidence and vulnerability go hand-in-hand in this painting. We may appear strong, yet we are all human, no matter what cape, mask or disguise we may hide behind.

LIMITED EDITION

I BELIEVE IN MAGIC

With a modern Pop Art feel, those who view this original piece of work will fall deep into its magical spell. A truly dream-like painting; a perfect addition to any Art Collection.

LIMITED EDITION

WE WILL MEET AGAIN

“I thought it prominent to mark HRH Queen Elizabeth II birthday this year, in a way that History would look back on and understand.

A way that will reignite memories of our current isolation in years to come, of the Pandemic that didn't discriminate. To remind us of The Lockdown of 2020 that no one saw coming. To bring a smile at the memories of kindness, the colour of the rainbows, the feeling of unity, a slower pace of life, of community spirit & love. Wartime songs, heroes, love, kindness and colour.

Our Queen, our Country, our Planet. United”

LIMITED EDITION

I AM ENOUGH

Amidst a global pandemic; isolated, anxious and juggling many different responsibilities, it became apparent pretty early on that our mental health was going to take a big hit.

In a bid to help raise awareness and vital funds for Samaritans, a charity that has helped me greatly during my dark days and throughout my recovery, I began working hard behind the scenes to secure what would become the largest campaign I could dream of: a self portrait, staring back at me full of colour, love and hope up on The Lights in the heart of Londons West End.

I wanted to find a way of sharing my journey with the world, with the lessons I have learned along the way.
